LIST OF TABLES

2.1 Classification of Lineaments (Based on Kowalik and Gold 1976)
2.2 Number and Direction of Major and Minor Lineaments
2.3 Orientation and Azimuth of Major Lineaments
2.4 Orientation and Azimuth of Minor Lineaments
3.1 Normal Rainfall of the study area.
3.2 Rainfall Data of the Chamarajanagar taluk
3.3 Average of Hydrometeorological Parameters (Monthly and Annually) of Chamarajanagar taluk.
4.1 Methodology adopted for Computation of Morphometric Parameters
4.2 Different Parameters Morphometric Analysis of four Sub basin of the Study area.
4.3 Study area of slope category
4.4 Slope Category of Contour Spacing on 1: 50,000 (IMSD tech. Guideline 1995)
4.5 Ground Water Prospect of Hydrogeomorphic Unit
4.6 Yanaganahalli Open well water level data in meter
4.7 Yadayur Bore Well water level data in meter
4.8 Kagalavady Bore Well water level data in meter
4.9 Harve Bore Well water level data in meter
4.10 Devalapur Open Well water level data in meter
4.11 Masagapur Bore well water level data in meter
4.12 Chamarajanagar Bore Well water level data in meter
4.13 Bisalavady Bore Well water level data in meter
4.14 Bedarapur Bore Well water level data in meter
4.15 Attigulipur Bore Well water level data in meter
4.16 Bisalavady Dug Well water level data in meter
4.17 Yadapur Bore Well water level data in meters
4.18 Average Water level data of Chamarajanagar taluk
4.19 Grid deviation Water table Values of Chamarajanagar taluk
5.1 Chemical Analysis Report of Chamarajanagar taluk
5.2 Different Chemical Parameters at Chamarajanagar taluk
5.3 Basic Criteria Used in HYCH Program
5.4 Water Quality Based on TDS Concentration of Chamarajanagar taluk
5.5 Classification of Total Dissolved Solids of Chamarajanagar taluk
5.6 Wilcox’s Classification of Groundwater of Chamarajanagar taluk
5.7 pH Value of Hydrogen Ion Concentration of Chamarajanagar taluk
5.8 Index Base Exchange of Groundwaters of Chamarajanagar taluk
5.9 The quality of Groundwater based on Piper Trilinear Diagram.
5.10 Schoeller’s Groundwater Types of Chamarajanagar taluk
5.11 Classification of Sodium Adsorption Ratio in Chamarajanagar taluk
5.12 Permeability Index Classification of Groundwater’s in Chamarajanagar taluk
5.13 Corrosivity ratio of Chamarajanagar taluk
5.14 Statistical Data of Groundwater’s of Chamarajanagar taluk
5.15 Statistical data of Salinity Sodium Hazard of Chamarajanagar taluk
5.16 CaCO₃ Saturation Indices of the Chamarajanagar taluk
5.17 Groundwater Main Water Types of Chamarajanagar taluk
5.18 Significant Environment of Chamarajanagar taluk
5.19 Groundwater Hydrochemical Facies of Chamarajanagar taluk
6.1 Representative Resistivity values of Regional Soil Resistivities (After Mooney; 1980)
6.2 Hydrogeological Characteristics of Bulk Resistivity ((After Sakthimurugan and Balasubramanian, 1991)
6.3 Electrical Methods used for general Hydrogeological Problems (After Bhumishangaram and Gaur 1977)
6.4 Geoelectrical parameters of VES location of Chamarajanagar taluk
7.1 Characteristics of Indian satellite for earth observation (after Kasthurirangan et al., 1996)
7.2 Characteristics of remote sensors on board Indian satellite for earth observation (after kasthurirangan et al., 1996)
7.3 Integration of multi-thematic information
