List of Figures

3.1 A Generic Model for M-Payments Application Service Provider ............. 63
3.2 Millicents Scheme ........................................................................ 73
3.3 METEOREs Scheme .................................................................... 75

4.1 Proposed Architecture .................................................................. 105
4.2 CDF of lapse since previous call. ............................................... 109
4.3 Gain over time. ........................................................................... 110

5.1 Propagation of RREQ Packet. ....................................................... 116
5.2 Route Reply through RREP Packet. .............................................. 117
5.3 Illustration of DSDV. ................................................................... 118
5.4 Trading between two consortiums. ............................................... 123
5.5 Process Oriented framework of the proposed m-commerce system. .......... 124
5.6 A delegated trading scenario. ........................................................ 125
5.7 Overview of the real time set up plan. ........................................... 126
5.8 Comparison of packet delivery ratio of routing schemes. ...................... 128
5.9 Packet delivery fraction vs. Pause time. .......................................... 129
5.10 Average End-to-End Delay vs. Pause time. ....................................... 130

6.1 Micropayments using hash chains. ................................................. 143
6.2 Unbalanced one-way binary tree. ................................................... 143
6.3 A simple hash-chain as a directed graph. ........................................ 145
6.4 Example of star chaining [19]. ...................................................... 146
6.5 Architecture of the proposed structural design .................................. 149
6.6 Payment mechanism in proposed system ........................................ 151
6.7 Broker Agreement Policy .............................................................. 152
6.8 Endorsement-Distribution ............................................................. 153
