From the innermost depths of my heart I give all gratitude and praise to God Almighty for this work has been accomplished whose everlasting mercy and abundant compassion have ensured the accomplishment of this research.

I sincerely express my deep sense of gratitude to my Research Supervisor, Prof. P. NAGARAJA, Professor in Analytical Chemistry, Department of Studies in Chemistry, University of Mysore, Mysore, for his invaluable guidance, constant supervision, inspiring advice and constructive co-operation. The encouragement to plan and execute experiments independently, as well as freedom to innovate that he gave me, made my research work a rewarding and enriching experience. His emphasis on meticulousness and attention to detail has made this thesis reality.

I am very grateful to the Chairman, Prof. H. S. YATHIRAJAN, Department of Studies in Chemistry, University of Mysore, Mysore, for his support and encouragement.

I am very grateful to the Honorable Vice Chancellor Prof. K. S. RANGAPPA, University of Mysore, Mysore, for his support and encouragement.

I greatly acknowledge the timely assistance and priceless support rendered by Prof. B. N. ACHAR, Prof. D. CHANNE GOWDA, Prof. SYED AKHEEL AHMED, Prof. K. BASAVAIAH, Prof. G. NAGENDRAPPA, Prof. K. M. LOKANATH RAI, Prof. S. ANAND, Prof. S. SHASHIKANTH, Prof. NAGARAJ NAIK, Prof. Y. B. BASAVARAJU, Dr. K. N. MOHAN, Dr. H. D. REVANASIDAPPA, Dr. K. MANTELINGU, Dr. M. P. SADASHIVA, Dr. B. S. PRIYA for their valuable advice, help and encouragement.

I express my deep sense of gratitude to CFTRI Ranganath Mysore for their timely help and constant encouragement.

It is my privilege to acknowledge the knowledge shared by my research colleagues, Dr. Honnur Krishna, N. Aradhana, N. A. CHAMARAJA, R. A. ROOPA, Dr. L. Vasanthakumar, A. R. PAULAS and my seniors Dr. Naef Ghllab Saeed Al-tayar, Dr. Ashwinee Kumar Shrestha, Dr. A. Shivakumar, Dr. Avinash K. GOWDA.
I express my deep sense of gratitude to Principal and staff Government Pre-
University College Nanjangud, for their timely help and constant encouragement.

Mere words are inadequate to express my gratitude and my heartfelt thanks to
my Husband, Shankar Bennur and my daughter Purvika S Bennur who were the
constant source of inspiration to carry out the research and also for their fervent prayers
and efficacious blessings in my endeavors.

I extended my acknowledgement with deep sense of appreciation to the
indispensable aid, encouragement, for the love and support received from my parents,
Vimala Ananda, A. G. Ananda murthy, mother-in-law B. Nagarathnamma, aunt
Arunamurthy, uncle Sambumurthy, my sister in law Shobha ranis family, my brother
Gangadhara murthy, sister Shwetha Girish, cousins and all my relatives for their warm
and lovely encouragement throughout my thesis work and also who have always been
behind this venture and has proved to be of immense value, I am deeply indebted to
them.

Author is grateful to University of Mysore for granting permission to carry out
the research work, IIT Madras for providing ESR spectrum of the compound and DST
New Delhi (University order No. DV6/89/DST/2007-08) for providing chemicals.

Finally I take this opportunity to express my gratitude to Faculty and non
Teaching staff of Chemistry Department, library staff of University of Mysore, and
CFTRI, Mysore who encouraged and helped me during the period of this investigation,
and I hope all for bringing out this thesis, and I hope all they will accept my sincere
thanks individually and collectively for all they did.

A. Suma
