Acknowledgements

This thesis would not have been possible without the help of the different people from the institutions and outside the institute at different levels. It is a great pleasure to acknowledge some of them for their help in compiling the thesis.

At this occasion, first of all I would like to thank my guide Dr. C.V. Shivaramakrishna, Reader cum Research officer, Central Institute of Indian Languages, Manasagangotri, Mysore, for his guidance and help in compiling this work within short span of time inspite of his busy schedule.

The work on any language cannot be possible without the help of the language community particularly if it is not your mother tongue. Although, I have been working on Munda languages since 2001 but it is a different sort of experience altogether as I have to work on many aspects of the language. It needs to enquire and sort out the confusion if you have any regarding certain aspects of the language feature again and again. In this endeavor Mr. Kaira Singh Bandia and Mr. K.C. Biruli of Mayurbhanj, Orissa, have helped and guided me whenever I called upon them. I am very grateful to them.

I would like to thank the participants of the South Asian Language Analysis Roundtable for their valuable comments on the chapter on Transformation. There are some people who need to be acknowledged. First of all, I am very grateful to Prof. B. N. Patnaik for his valuable guidance. I am indebted to Prof. Aisa Kidbai of JNU for her comments on chapter on Phrase Structure. I am also grateful to Dr. Anil Thakur, Assistant Professor of Linguistics, BHU, for his guidance. Many more people need to be acknowledged here who helped me in one way or other. A few of them are Dr. KonchokTashi, Dr.Bhamini Raghavaiah K., Thakur Prasad Murmu and many more.

I am also thankful to some of the staff of NTM particularly Harish M.P., CIIL library members and technicians who helped me whenever I asked for any sort of help.
In the last but not least I am grateful to my wife and children who provided me ample time to complete this work.

Pawan Kumar Choudhary
