ACKNOWLEDGEMENT

The work as presented in this thesis is never wrought in splendid isolation. I have a number of people around me who extended their help and co-operation in realising this academic pursuit. It is difficult for me to acknowledge every individual here in this short space. I feel pleased and exalted to place on record the gratitude to some personages without whose help this exercise would have been nothing but a mirage.

At the first instance thanks are due to my revered teacher Prof. M. Z. Chishti (Supervisor) whose skillful guidance, invaluable suggestions and constructive criticism was a key to my success. He has been always an emblem of filial love and untiring helping hand during my entire course of research.

I am especially grateful to Prof. A.R. Khan (co-supervisor) for overseeing my Ph.D programme. I am also thankful to him for providing me his personal literature and necessary laboratory facilities during his tenure as Head of the Department.

Words fail me to express my gratitude to Dr. A.R. Yousuf who permitted me to use his personal library and blessed me with his healthy and constructive criticism. I am also thankful to Dr. R.C. Bhagat and Dr. A. Channa for their occasional advices.

Thanks are also due to Prof. O. M. Amin (Univ. of Wisconsin, USA) and Prof. C.R. Kennedy (Univ. of Exeter, UK) for their generous supply of literature.

I feel great pleasure in recording my indebtedness to Dr. Zafar A. Reshi for his unstinted help in statistical analysis.
Sincere thanks are due to Dr. Fayaz Ali for his assistance in compilation, meticulous proof reading and photomicrography.

I am bereft of words in expressing my gratitude to Prof. M.Y. Dar and his family for their help in fish collections.

Prof. Syed Abdul Ali (Principal Govt. Degree college for Boys Ang.) has obliged me with his help and magnanimity. I am equally thankful to Prof Syed Gh. Nabi (HOD Zoology) for sharing my work load.

I am grateful to my friends especially to Dr. Sultan, Dr. Farooq, Dr. Tanveer, Dr. Neelofar, Dr. Iqbal, Dr. Irshad, Dr. Majidah and Mohiudin Ibini Farooqi for being helpful to me in one way or the other. Mrs. Irshada Chishti's morale boosting and encouragement is acknowledged with due regards and thanks.

Financial assistance provided to me by UGC under FIP scheme is gratefully acknowledged.

Words can never convey the love and concern shown to me by my family members. I am thankful to my mother, to whom the thesis is dedicated, for bearing my separation with patience and forbearance. My special thanks are due to my sister Aisha who has nursed me since my childhood and faced bravely many trials and tribulations for my sake. I feel exalted to recall the convivial company given to me by my younger siblings. I am also thankful to Dr. Bashir Ahmad and Mr. Gulzar Ahmad for literary discussions and encouragement.

Lastly my thanks are due to Mr. Hilal Ahmad Mir (UCC) for computerising my thesis.

Dated: December 15, 1995
