

## LIST OF PHOTOGRAPHS

<b>Fig. No.</b>	<b>Title</b>
95.	Copper deposition in gills <i>Schizothorax niger</i>
96.	Copper deposition in gill of <i>Cyprinus carpio</i>
97.	Copper deposition in gill filaments of <i>Cyprinus carpio</i>
98.	Copper deposition in gill filaments of <i>Schizothorax niger</i>
99.	Copper deposition in gill filaments of <i>Cyprinus carpio</i>
100.	Zinc deposition in liver of <i>Schizothorax niger</i>
101.	Zinc deposition in liver of <i>Schizothorax niger</i>
102.	Iron deposition in liver of <i>Cyprinus carpio</i>
103.	Zinc deposition in liver of <i>Cyprinus carpio</i>
104.	Zinc deposition in kidney of <i>Cyprinus carpio</i>
104.	Copper deposition in liver of <i>Cyprinus carpio</i>
105.	Copper deposition in kidney of <i>Cyprinus carpio</i>
106.	Severe hyperplasia and fusion of gill lamellae in <i>Cyprinus carpio</i>
107.	Hyperplasia and vacuolation of the gill racker in <i>Cyprinus carpio</i>
108.	Hyperplasia of basal epithelium in the primary lamellae of <i>Schizothorax niger</i>
109.	Club formation of the secondary lamellae of <i>Cyprinus carpio</i>
110.	Loss of epithelium in <i>Schizothorax niger</i>
111.	Club formation of secondary lamellae in <i>Schizothorax niger</i>
112.	Hyperplasia and fusion of secondary lamellae in <i>Cyprinus carpio</i>
113.	Fusion and vacuolation of secondary lamellae in <i>Schizothorax niger</i>

114. Telangiectasis of secondary lamellae in *Cyprinus carpio*
115. Hyperplasia and vacuolation in *Schizothorax niger*
116. High magnification of gill lamellae with hyperplasia and vacuolation in *Schizothorax niger*
117. Severe congestion and degenerative changes in hepatocytes in *Cyprinus carpio*
118. Congestion and degenerative changes in *Cyprinus carpio*
119. Kupffer cell hyperplasia in *Schizothorax niger*
