ACKNOWLEDGEMENT

To the Almighty God, who is the complete and only source of every knowledge and understanding gifted to mankind and blessed me with the ability to do this effort. I remain thankful for blessing me with courage, patience, endurance and strength to overcome all the hurdles to succeed in this endeavor.

On the occasion of the submission of the results of this study, I take this opportunity to express my heartfelt deep gratitude and acknowledgement to all those who supported me with their valuable contribution.

From the innermost core of my heart I express my obligation, respect and honor to Prof. Kamal Ghanshala, President Graphic Era University, Dehradun for creating a learning environment in the University campus so that I could access all the facilities offered by the university in completing this research work. I am extremely grateful to him.

I would also like to express my deep and sincere gratitude to Dr. R. C. Joshi, chancellor, GEU, Dehradun for suggestions to improve my thesis and constant help during the investigation.

I wish to express my sincere thanks to Dr. Pravin Patil, Dean Research GEU, Dehradun for suggestions to improve my thesis. His moral encouragement and lots of wise words were always a source of inspiration to me.

I would like to express my sincere appreciation and gratitude to my supervisors Dr. Rakesh Kumar Bachheti assistant Professor, Department of Chemistry, Graphic Era University, Dehradun, for his advice, support, patience and constant encouragement throughout the course of my research work.

I express my profound sense of gratitude and feel great pleasure to acknowledge my Co supervisors Dr. Brij Bhushan associate professor, Department of Chemistry, Graphic Era University, Dehradun for his inspiration, benign cooperation, industrious guidance, impeccable supervision, timely criticism and benevolent help during investigation and preparation of this manuscript. He provided constant guidance to my academic and research work.

I also express my deep intellect of gratitude to Professor Dr. R. G. Sharma, HOD Chemistry, Department, Graphic Era University, Dehradun. His moral encouragement and lots of wise words were always a source of inspiration to me.

I am extremely grateful to Dr. C. K. Saini, Professor, Chemistry Department, Graphic Era University, Dehradun who had taken effort for providing valuable suggestions and moral support during my research.

I express my thanks to Dr. Bhawana Kweera associate professor, Department of Chemistry, Graphic Era University, Dehradun for their important suggestions during preparation of synopsis and benevolent guidance from time to time during my Degree.

I would like to take this opportunity to convey my cordial gratitude and appreciation to Dr. Om Prakash associate professor, Department of Chemistry, CBSH G. B. Pant University of Agriculture and Technology Pantnagar for providing all lab facilities for phytochemical, antioxidant, phenolic assay and physical analysis of essential oils. I am really indebted to him for his accommodative attitude, thought provoking guidance, immense intellectual input, patience and sympathetic behavior.

I wish to express my sincere thanks to Dr. A.K. Pant, Professor and Head, Department of Chemistry, CBSH, G.B. Pant University of Agriculture and Technology Pantnagar for their timely suggestions and benevolent guidance from time to time during my Degree.
I am deeply and strongly obliged to Dr. Mahesh Kumar professor and Incharge, Department of Veterinary Clinic, College of Veterinary and Animal Sciences, G. B. Pant University of Agriculture and Technology Pantnagar for providing lab facility for anti-inflammatory, analgesic and antipyretic activities.

I am highly obliged to Dr. D. S. Rawat assistant professor and plant taxonomist, Department of Biological Sciences, CBSH, Pantnagar for taxonomically authenticating the plant material and moral support.

I acknowledge special thanks to Dr. Arunima Nayak associate professor, Department of Chemistry, Dr. Archana Joshi assistant professor, Department of Environment, Dr. Neetu Sharma assistant professor, Department of Chemistry, Graphic Era University Dehradun for constant help and motivation during my degree.

I wish to express my gratitude and fervent thanks to Dr. Ashish Thapliyal Professor and Head, Dr. Nishant Raj associate professor, Dr. Pankaj Gautam assistant professor and Dr. Promilla Sharma associate professor, Department of Biotechnology Graphic Era University Dehradun for providing chemicals, bacterial culture and lab facility for antibacterial activity with valuable guidance. I also thankfully acknowledge to Dr. G. K. Gupta Professor Department of Physics, Graphic Era University Dehradun.

I extend my special thanks to Dr. Mangay Ram sir associate professor, Department of Mathematics, Graphic Era University Dehradun and Dr. Ganesh Pandey assistant professor, Department of Chemistry, Graphic Era Hill University Bhimtal for his important suggestion and moral support. I also thankfully acknowledge to Dr. Ravindra Kumar for his support during study.

I never forget the time sharing with my friends Ashutosh, Jaipal, Pramod, Amit, Vijay, Harish, Uday, Subhash, Yogesh and Vijay Meletha for their kind help, love and care did not ever let me feel out of my family. I also thankfully acknowledge to Harish Joshi and Prakash Bhandari for their support and help during study.

I also express my gratitude to my father Sri R. D. Dimri and my mother Smt. Pratima Devi who have given me constant inspiration and blessings to help me fulfill my ever cherished dreams. I express my appreciation to my all family members who have supported me throughout my research work.

Mahesh Chandra
