Acknowledgement

At the outset I solemnly acknowledge the gratuitous support and help that have been extended from various corners during the tenure of my research work for its successful completion.

I take this opportunity to express my sense of respect and admiration to my research guide Prof. Animesh Kumar Datta, Dept. of Botany, University of Kalyani, for his deep and sustained interest, consistent involvement and paramount contribution in this research work without which it would not be possible to complete the work in its present form. I have been amazingly fortunate to have a Research Guide who gave me the freedom to explore on my own. He provided me the guidance to recover when my steps faltered. He taught me how to question thoughts and express ideas. His patience, love and support helped me to overcome many crisis situations. Being with him helped me to learn the lesson of responsibility, dedication, honesty and above all to be a good human being. I will ever remember and respect him for his thoughtfulness and guidance that make a way to face all the challenges in life and to do always what is right.

I am indebt to the University of Kalyani for providing me facilities to carry on my research work and I express my profound reverence to Dr. S. N. Sinha, The Head of the Department of Botany, University of Kalyani for providing necessary facilities during the tenure of the work.

I humbly submit my indebtness to Prof. G. G. Maity and Dr. S. Gupta for their generous and spontaneous help in taxonomical and palynological studies as and when needed.

I would like to express my whole hearted anddeepest regards to my mother and my husband who were always by my side helping me and supporting me. I will never forget the spontaneous contribution and co-operation and inspiration of all my family members.

My special thanks to Mr. Ranjan Kirtania (our laboratory staff) for his valuable help without which this work could not have been completed.
I also extend my gratefulness and thankfulness to my lab. mates namely Dr. Benoy Kumar Ghosh, Mr. Aninda Mandal, Smt. Priyanka Kumari Dubey, Mr. Sandip Halder, Mr. Sudip Kumar Das and Mr. Aveek Samanta for their constant encouragement, suggestions and various helps rendered during the work.

Last but not the least, I am thankful to all my teachers, staffs and research scholars of the Department of Botany, University of Kalyani for their constant vigil and assistance.
