ACKNOWLEDGEMENT

Looking back at my years at Centre for fluid mechanics, I feel blessed every step along the way. It has been such a wonderful journey, not just because of all the great science in the roof of the Centre, but also the many wonderful people that I got to know and become friends with. This satisfaction and euphoria that accompany the successful completion of the task would be incomplete without the mention of the people who made it possible whose constant guidance and encouragement crown my efforts with success.

I express my deep sense of gratitude to my research guide Prof. N. Rudraiah, F.N.A., F.N.A.Sc., F.A.Sc., F.I.M.A.(U.K.), F.U.M.A.(India), Honorary Professor of Mathematics, Bangalore University, Bangalore; Honorary Director, National Research Institute for Applied Mathematics (NRIAM), Bangalore; and former Vice-chancellor, Gulbarga University, Gulbarga, for his sustained guidance and inspiration during the period of my research work. His knowledge, discipline and ever enthusiastic nature have instilled in me a great sense of hard work and an aptitude for research. Indeed, it is an enriching experience to work under his guidance and I place on record my profound gratitude to him.

I express my sincere thanks to Dr. I. S. Shivakumara, Professor of Mathematics, and Co-ordinator, UGC-CAS in Fluid Mechanics, Dr. M. Venkatachalappa, Retired Professor of Mathematics, Bangalore University, Prof. G. Ranganna, former Dean, KREC, Surathkal, Dr. P. M. Balagodur, Professor of Mathematics, Bangalore University, Dr. Ramesh B Kudenahatti, Department of Mathematics, Bangalore University for their suggestions, moral support and timely help during the course of my research work.
I am highly thankful to the authorities of Indian Space Research Organization (ISRO) for awarding me Research Fellowship (Junior and Senior), during the investigation of this thesis. I am also grateful to IAEA, Vienna, Austria for considering my work as useful in the Inertial Fusion Energy and inviting me to present my work in International Youth Conference on Fusion Energy held Daejeon, Republic of Korea during October 2010.

I am thankful to Prof. Y. B. Maralabhavi, Prof. Pradeep G. Siddheshwar, Dr. M. S. Mahadeva Naika, Dr. H. G. Nagaraja, Dr. B. Chaluvaraju, Dr. Harina P. Waghmore, Dr. K. V. Prasad, Dr. Medha Itagi Huilgol and Non-teaching staff, Department of Mathematics, Bangalore University, Bengaluru who encouraged me with words of appreciation during my research work.

I take this opportunity to thank the Prof. K. Mallikarjuna Babu, Principal, BMSCE and Prof. G.N. Sekhar, Vice-Principal and HOD Department of Mathematics, BMSCE, Bangalore-560 019. I also thank my colleagues at Department of Mathematics, BMSCE, Bangalore -560 019.

I express my heartfelt thanks to my co-research scholars Dr. Devaraju., Shankara, Reddy, Sujatha, Akkanagamma, Prof. GKS, Prof. KPS, Nagaraju, Dhananjaya, Naveen, Gopalakrishna, Gangadhar Reddy and other research scholars of the UGC-CAS in Fluid Mechanics for their help and co-operation. I also express my thanks to Chandan, Sushan, Srinivas, Asif and Sujatha research scholars Department of Mathematics. I also thank UGC-CAS non-teaching staff Mohan Kumar and Kumar for their co-operation. I also take this opportunity to thank the staff of Bangalore University Library, for extending their help during the literature collection.
Last but not the least, I would like to thank all my family members and friends for their continued encouragement and inspiration especially my brother Mr. Nagesh and my wife Mamatha.

CHANDRASHEKARA G.
