ACKNOWLEDGEMENT

Numerous persons helped me in important ways in the accomplishment of this work. Special recognition is due to Dr. M. N. Azim, Reader, P.G. Department of Zoology, University of Kashmir, and Dr. M. A. Khan, Director CSR & ET I, Pampore, under whose guidance and supervision this work was carried out. Their dextrous supervision, enthusiastic support, invaluable suggestions, critiques and diverse expertise have made it possible to accomplish this work for which I put on record my heartfelt gratitude and indebtedness to them.

I have great pleasure in expressing my profound appreciation to Prof. R.C. Bhagat, Head, P. G. Department of Zoology, University of Kashmir for providing me facilities required for the execution of this project.

I owe my most valuable thanks to all the staff members of the department of zoology for timely suggestions and encouragement.

I feel deeply privileged to extend my gratitude to all my friends particularly Dr. Bilal Ahmad, Dr. Sajad Hussain, Dr. Rifat Hussain, Dr. Zaveer Ahmad, Mr. Muzaffar Ahmad, Mr. Taha Hussain, Mr. Fayaz Ahmad, Mr. Gh. Ahmad Waggy and Mr. Hilal Ahmad Who's conscientious support helped me a lot. Their competent advice, enthusiastic support, constant helpfulness and good spirit made me this write up of mine a reality.

I must extend my indebtedness to my lab. colleagues especially Mr. Mohd. Shafi, Mr. Shabir Ahmad, Mr. Deen Mohd. Mr. Aijaz Ahmad Qureshi, Mr. Aijaz Ahmad Rather and Mr. Altaf Ahmad for their cooperation.

I sincerely compliment the scientific, technical and field staff of CSR & ET I, Pampore and its nested units for their timely support, encouragement and guidance in right direction.
I wish like to place on record the assistance rendered by Librarian Iqbal Library, University of Kashmir, Chief Librarians, SKUAST, FR, Dehra Dun and IARI, New Delhi.

I appreciate the help and cooperation of Department of Sericulture, J&K, which not only kept their entire library at my disposal but also provided me valuable inputs required for the compilation of data.

As a matter of fact, during the course of my research, many individuals have assisted and encouraged me. I am sorry that limitation of space prevents me from thanking them individually in this write up.

A special note of thanks is due to Mr. Parveez Ahmad, Computer operator (VIRUS DIGITAL INTERNET CAFE) who truly helped me in the completion of this thesis.

Thanks are due to Mr. Parveez Ahmad, Ph.D. Scholar, Department of Botany and Dr. Tariq Ahmad, lecturer, Deptt. of Statistics, University of Kashmir, who gave a statistical touch to the data collected during observation period.

I would never hesitate in giving due credit to Mr. Ali Mohd Dar, who, along with his family assisted and encouraged me through all possible ways and in its absence I would have certainly abandoned my Ph.D. programme.

Finally but foremost, my parent's obedience and help have been most vital ingredient of this thesis. Needless to say that they were a continuous source of inspiration and encouragement during the course of study. I don't have eloquence at my humble command to repay their debts.

Ab: Majid Bhat
