List of Tables

8.1 Physical properties of few dielectric fluids .................. 153
8.2 Values of $G_e$ for certain pairs of dielectric fluids ........ 153

10.1 Physical properties of paramagnetic salt solutions .......... 232
10.2 Ratio of critical relative velocity with and without magnetic
    field ................................................................. 233
10.3 Ratio of critical relative velocity with and without magnetic
    field at the interface of a ferro-fluid and air .............. 233
10.4 Ratio of critical relative velocity with and without electric field
    at water-air interface .......................................... 234
