ACKNOWLEDGEMENTS

I have been highly privileged with the kind assistance, inspiration, and immense support coming from the wonderful people who have accompanied me over the walks of my PhD journey. With utmost gratitude, I would like to acknowledge all the kind souls who have fuelled the completion of this dissertation.

First and foremost, I would like to express my deepest gratitude to my parents and my sweet sister, Komal Didi, for being very supportive and patiently awaiting the completion of my project. They played a crucial role in the sustenance of my balanced state through the PhD process. I cannot imagine the achievements of my work being possible without the constant support and the endless love of my family.

I would like to sincerely thank my mentor, Dr. Krutika Desai, and an ideal teacher, for her guidance and support through the project. Her faith, expectations, constructive criticism, and immense training have steered the development of my personality as a researcher, a better presenter and a scientific writer. The ease of communication with her, anywhere and anytime, and her immediate response is greatly appreciated.

I am very grateful to Dr. Aparna Khanna, Dean, NMIMS School of Science, for her support, concern, constant efforts in improving the students’ life and encouraging further progress in the students’ work and career.

I would like to thank Dr. Ashok Bhagwat, Ex-Director, Shri C. B. Patel Research Centre, for being the inspirational force and a candle light throughout the hurdles of my project and my life at the NMIMS School of Science.

I would like to express my gratitude to the members of my Doctoral Committee, Dr. B. Ganguli, Dr. K. Joishi, Dr. Chhaya Sawant and Dr. Purvi Bhatt, for their guidance, suggestions and periodic assessment of my research.

I would like to express my gratitude towards Dr. Dhananjaya Saranath, Dr. Nancy Pandita, Dr. Brijesh Sukumaran, for providing their valuable suggestions and kind assistance.

I would like to acknowledge the essential guidance offered by Dr. M. N. Welling, Pro-Vice Chancellor of NMIMS, and a well known expert in Statistics, for the statistical
analysis of the research data. I would also like to thank Mr. Sunil Shirvaiker and Mrs. Leena Kulkarni for providing further help in statistics and SPSS statistical software.

I would like to express my deep gratitude towards Dr. Prashant Kharkar, Associate Professor and I/C, Department of Pharmaceutical Chemistry, SPP School of Pharmacy and Technology Management at NMIMS University. He has been incredibly helpful throughout the molecular docking studies of my project; a wonderful person who is always willing to help fellow people.

I am extremely grateful to Dr. Ajit Datar, Advisor at Shimadzu Analytical (India) Pvt. Ltd., Mumbai, and a renowned expert in analytical chemistry, for his kind help and noteworthy guidance in the compound identification concerned with my research work.

I would like to express my earnest gratitude towards the scientists’ duo and a wonderful couple, Dr. Dipshikha Chakravortty, Associate Professor, Department of Microbiology and Cell biology, Indian Institute of Science, Bangalore, and Dr. Krishna Nandakumar, Principal Scientist, R&D, Himalaya Drug Company (formerly) for their kindness, motivational words, and key inputs in the research.

I would like to appreciate the generosity of Dr. Barbara H. Iglewski, Department of Microbiology and Immunology, University of Rochester, New York and Dr. Robert J.C. McLean, Department of Biology, Texas State University, Texas. They have been very kind in sending the biomonitor organisms as a gift for my research.

I would like to sincerely thank the team of P. S. Ramanathan Lab, Ramnarian Ruia College for conducting the GC analysis of my samples.

I am very thankful to the staff at Agharkar Research Institute, Pune for the services provided towards the authentication of plant material included in this study.

I am sincerely grateful to the staff of the Department of Microbiology at K.E.M. Hospital and R. N. Cooper Hospital for being cooperative and providing the clinical isolates used in this study.

I am grateful to Indian Council of Medical Research, New Delhi for providing financial assistance in the form of Senior Research Fellowship.
I would like to thank the non teaching staff at *NMIMS School of Science* and *Shri C. B. Patel Research Centre* for their help and co-operation.

Friendship is all about love, support, fun, work, sharing, understanding and spending time together. And I have known this from my best pals who have been with me through the highs and lows of my project and my life. I am eternally grateful to God for enlightening my life with my bestest friend, *Riddhi Jholapara*, and *Radhika Mehta, Nithya John, Aarti Deodhar Gan, Harita Parikh* and *Animesh Deval*. I wish to thank all of my pals for the cherished moments filled with gossip, fun, adventure, parties, and for the immense help and support.

A special thanks to my friends, *Dipti Lakhe*, for providing technical assistance in column chromatography and *Viraj Yele*, for accompanying me through the long hours of growth curve experiments and helping me throughout the process. And finally, a big vote of thanks to all my lab fellows and virtual fellows for all the help offered.
