ACKNOWLEDGEMENTS

This thesis would not have taken this shape without the help of large number of people. My fruitful journey as a doctoral student has increased my knowledge in the subject while shaping my character and conduct as a human being. I have gained different skill sets during my experiments, presentations, my travel across India in the past four years and interaction with different people whom I acknowledge below.

First and foremost, I would like to thank my research supervisor Dr. M.S. Chandrashekara with all gratitude for his guidance to do research.

I am very much grateful to Prof. L. Paramesh for his everlasting encouragement throughout my studies, which has helped in shaping the thesis and also I am grateful to Prof. R. Somashekar, Chairman, Prof. T. K. Umesh, Prof. D. Revannahsiddiah, Department of Studies in Physics for their cooperation in completing my research work and their valuable suggestions to improve the thesis.

I would like to express my deep gratitude and respect to Prof. P. Venkataramaiah, former Vice-Chancellor, Kuvempu University whose advices and insight was invaluable to me. This thesis would not have been possible without the support of him and patiently corrected my writing.

I am thankful to Prof. P. Nagaraja, Principal Investigator, BRNS project for providing the opportunity to work under his guidance as a research fellow. I am grateful to Dr. A. Chandrashekara, Rare Material Project, BARC, Mysore for being Principal Collaborator of the BRNS project and Mrs. Smitri Manilal, scientific officer, BARC, Elwala for assisting in the experimental work done at RMP, BARC.

I would like to thank teaching and non-teaching staff of our department for their valuable help. I would like to thank my research colleagues in my lab for their assistance in fieldwork and experimental work. I also thank my friends for their encouragement in research path.

I would like to thank BRNS, DAE and BSR, UGC for providing the financial support and also University of Mysore for providing the laboratory facilities at the DOS in Physics to complete the research work. I am grateful to the International Radiation Protection Association for providing the financial assistance for participating in the international congress held at Glasgow, UK.

At last, I thank my parents, my brother Umesh B.M and my village people for their well wishes and the support my stature as a doctoral candidate.

Rajesh B.M
