When I sit to write this page numerous faces come across in my mind to whom I am indebted from the beginning of this venture and without all those timely help I could not have completed this work. My utmost thanks are due to Dr. M. Haridas, Reader in Biophysics, School of Biosciences who suggested this problem for the study, very generously supervised the project and improved the embryonic manuscript in numerous ways to enhance the didactic value and brought this project to fruition.

My sincere and heartfelt thanks are due to Dr. Shankar Shashidhar, Director, School of Biosciences, who as my co-guide helped me in all steps of my project. It was in fact his guidance that I happened to join for research programme. I am greatly indebted to him. As a Director he earnestly extended the gracious help academically as well as administratively to ensure smooth progress of this work.

I owe my deep sincere gratitude to Prof. Dr. Muraleedhara Kurup, Professor in Biochemistry, School of Biosciences, who was deeply interested in enquiring the progress of my work and gave me timely advice.

My sincere gratitude extends to Dr. M.S. Latha, Reader in Biochemistry, School of Biosciences, who always encouraged and blessed me in bringing of this work to completion.

Words of indebtedness are due to Dr. Jothis Mathew, Lecturer in Microbiology, School of Biosciences, who gave me the preliminary classes in Microbiology and for providing skillful assistance and advice in this work.

I am very much thankful to Dr. Jayachandran, Lecturer in Biotechnology, School of Biosciences, who helped me with his books and knowledge and cleared my doubts whenever I approached him. His solicited and unsolicited advice was a great help in my work.

I extend my deep and sincere gratitude to Dr. C. Sadasivan, Lecturer in Biophysics, School of Biosciences, who greatly helped me by giving advice and proper guidance while doing my work. He generously helped me in interpreting some of my results.

I acknowledge here by the assistance and guidance of Dr. Anbu, Scientist, Regional Research Laboratory, Trivandrum, who allowed me to do work in his Lab. Without his generosity I would not have been able to carryout experiments in HPLC.

I extend my sincere and heartfelt gratitude to all the non-teaching staff of this department especially the Laboratory Technologists, Mr. Bose and Mrs. Regi.

Now a long list of colleagues bears due acknowledgement. The assistance rendered by them bear immense value to bring this project to completion. Words may be too little to
describe the contributions of each one. While I write I may have missed some of the names or have mentioned too little about them. However I feel that all their help are engraved in my heart and will be remembered by me life long. I extend my sincere and heartfelt gratitude to my labmates namely Dr. Sreekumar B., Dr. Sudarsanlal, Dr. Benoy M Jacob, Mr. Manoj N. K., Mr. Arun A. Rauf, Prof. P.V. Joseph, Miss Gincy P. Thottathil, Miss Elizabeth Samuel, Mr. Sunil and Mr. Toji Thomas. Their sincere and helpful hands helped me to carry out my experiments smoothly. Furthermore, I am indebted to their co-operation and generosity at the hours of need and trouble.

I acknowledge the assistance rendered by Mr. Jacob Varghese Biboy in each step of my work. His critical appreciation was helpful to me at all stages of my work. My sincere thanks to Miss. Jayasree G. for editing this manuscript. Due thanks to Mr. Sinilal in helping me in photography. I am indebted to Mr. Ashokan for helping me in Microbiology works. My sincere gratitude to Mrs. Sindhu R., Dr. Sanil R., Dr. Keshavachandran C., Mrs. Jyothi M., Miss Sandhya, Mrs. Liji Jacob, Dr. Sreekumar R., Dr. Harikumaran Nair and Mrs. Maya B. Nair, for their help and kindness. I am grateful to Dr. Mrs. Latha R., Dr. Mrs. Salomy Mathew, for their moral support. Word of appreciation goes to Mr. Ajikumar P. K. and Mr. Tharun A. Rauf for their kindness.

Due thanks to Prof. Thomas Mathew, Retd. Professor, Bishop Moore College, Mavelikara and his family for their blessings and constant encouragement. I take this opportunity to thank Prof. Mr. Varghese Chandy, Retd. Principal and Mr. Abraham Thomas, Lecturer in Natural Science, Peet Memorial Training College, Mavelikara and to all my teachers of S. B. College, Changanacherry, for their blessings and encouragement.

Words of gratitude extended to Mrs. Annamma T.O., my Grand Mother, Mrs. & Mr. Alexander K. Mathew, Mrs. & Mr. Oommen K. Mathew, my uncles and aunts and my cousins for their prayers and help.

My special thanks are due to M/s Copy Write, Ettumanoor, for word processing and photocopying of this work.

Last but not the least I extend my heartfelt gratitude to my parents to whom this dissertation has been dedicated, my sister Mrs. Jetsu Jacob and her family and my brother Mr. Jerish Varghese for their support and prayers right from the beginning to the end of this venture.

A word of gratitude to my husband Mr. Biji Thomas and my daughter Aleena Anna Thomas for bearing all the inconvenience in the due course of completion of this work.

Jinsu Varghese
