ACKNOWLEDGEMENTS

I take this opportunity with a deep sense of gratitude to record my sincere thanks to my Teacher & Research Supervisor Dr. T. Demappa, Associate Professor of Polymer Science, Department of Studies in Polymer Science, Sir M. Visvesvaraya Post Graduate Centre, University of Mysore, Tubinkere, Mandya, for providing me an opportunity to work in the field of research that is most sought by the society. I am grateful to him for suggesting and guiding me to work in this interesting research field. I am greatly benefitted by his critical discussions, valuable suggestions and encouragements that have always been a source of enduring support in completion of my research work. I am humbly indebted to him for providing me academic freedom and inspiring guidance all along the course of the present studies.

I take this opportunity to thank Professor K.S. Rai, Chairman, Department of Studies in Polymer Science & Senior faculty Dr. R.L. Jagadish and other faculty members of the department. I am also thankful to Director, Sir M. Visvesvaraya Post Graduate Centre, University of Mysore, Tubinkere, Mandya, for all the support and facilities extended for completing this research work.

I am thankful to Dr. K T Varughese, Scientist (Grade V), Polymer Laboratory, Central Power Research Institute, Bangalore, India, for his invaluable help, guidance in characterization of the polymer composites and critical discussions.

I am thankful to Dr. K Prashantha, Research Scientist & Faculty, Ecole Des Mines de Douai, Douai, France for sparing his valuable time in discussing the fascinating field of polymer composites and in providing me relevant literature whenever asked. I am happy to remember the days involving in extended detailed discussions with him during his stay at Indian Institute of Science, Bangalore. I am humbly indebted to him for his valuable suggestions and inspiring guidance.
I am thankful to Dr. V. Harish, Assistant Professor of Physics, Government First Grade College, Shimoga, a friend, who always extended his helping hands when I was in need. I cherish the moments of discussions we had in the late evenings, in conferences and seminars. I am humbly indebted to him for his valuable support, suggestions, inspiring critical discussions and mathematical related issues.

I am very much grateful to my colleagues & friends, Principal and Management of East point College of Engineering for Women, Bangalore for their support during my research work.

I would like to express my indebtedness to my father C Thippeswamy who himself was an inspiring, disciplined, dedicated teacher and mother Lakshmi Devi for their sacrifice and support for every achievement in my life. Also I acknowledge gratefully the support of my brothers, sisters and sister-in-laws in all my endeavors.

I am also thankful to my father-in-law Y.T. Jairam, mother-in-law Munilakshmamma and brother-in-law Y.J. Jaishankar for their kind support and helping us by taking care of our children.

My special thanks to my beloved wife Mrs. Y.J. Hemalatha who herself a constant driving force with unlimited energy. She volunteered herself to relieve me from most of the family pressures by sacrificing her pleasures to create enough space for me to take up my research tasks and always stood with me at every moment of my life extending unconditional trust & support. My heartfelt love to my son Yeshas and my daughter Late Kum. Jaganmayee who missed my parenting time.

I thank each one who has directly or indirectly helped me in making my dream come true.

T. Niranjana Prabhu
