ACKNOWLEDGEMENT

First of all I thank the Lord Almighty for giving me good health and great blessing showered to me all throughout my life, especially during the research period. Also I thank Him for this opportunity.

Writing this is a responsible task that cannot be accomplished without supportive, interest and keen involvement of many people.

I express my respectful and deep sense of gratitude to my beloved guide Dr. K. Jayakumari, Associate Professor and Head, Department of Physics, Sree Ayyappa College for Women, Chunkankadai 629 003 and co-guide Dr. C.K. Mahadevan, Associate Professor of Physics (Rtd.), Physics Research Centre, S.T. Hindu College, Nagercoil, 629 002, for their valuable and constant support and guidance right from choosing the problem until the completion of my work in a fruitful way. I am indebted for their valuable time they have spent during the preparation of my thesis effectively.

It would not have been possible without the constant encouraging support of my husband Mr. S. K. Ajith Kumar who has always been tolerant and understanding. I extend my love and thanks to my children A. R. Anchana and A. Abiram for their patience and co-operation when I have been away from their motherhood, during the period of this work. My gratitude and honour to my parents-in-law, Mr. S. Shadananan Thampi and Mrs. L. Krishnamma for their caring and support. My heartfelt gratitude and thanks to my parents Mr. K.R. Vijayachandran Nair and Mrs. T. Parvathy Amma who have provided me the opportunity to be educated and are responsible for what I am today.
I am thankful to the Management, Principal and my colleagues of Lekshmipuram College of Arts and Science, Neyyor.

I express my heartful thanks to The Management, Principal and Head of the Physics Department of S.T. Hindu College, Nagercoil for extending the facilities to me to carry out the research work. It is my pleasure to thank all the staff members of the Physics Research centre, S.T. Hindu College, Nagercoil, for their help rendered to me.

I am very much thankful to the Management, Principal and the faculty members of the Physics Department of Sree Ayyappa College for Women, Chunkankadai.

A word of heartfelt thanks to my dear friend Dr. D. Shiney Manoj and her husband whose dedication with perseverance has made my task considerably easier. I express my heartfelt thanks to my Guide’s husband, Co-guide’s wife and their children for their warm welcome, support and co-operation.

I would like to thank the scientist Dr. Subramoniam of CECRI, Karaikudi for his help in collecting the articles and in Instrumentation. I like to thank Dr. Ramalingam Pillai, HOD, Department of Chemistry of Lekshmipuram College of Arts and Science for his constant help. I am privileged in having whole hearted cooperation and perfect understanding from all my friends and colleagues, Mrs. A. Darlin Mary (Anai Velankanni College, Tholayavattam) and Dr. A. Karoline (Muslim Arts College, Thiruvithancode) for their help during my Ph. D. work.

Last but not the least I take special pride in acknowledging my relatives, teachers and well wishers for their immense help and prayers.

P.V. Radhika
