Bill Gates has written a book on “Business @ Speed of Thought”. It is not enough to have good idea; one must also apply it commercially as soon as possible before others introduce them. It is not enough to have dreams, one must achieve them. He has also mentioned in the same book that every day when you wake up in the morning look at Forbes World’s Richest List if your name is not there, just start working. So success always requires continuous hard-work. I would like to express my sincere thanks to Dr. Rajnikant P.
