ACKNOWLEDGMENTS

All praise and thanks are due to God Siva & God Tirumala Venkateswar, the Greatest, the most Merciful, the Creators and Lords of everything.

I am really indebted to my supervisor Prof. J. Raveendra Reddy, Vice – principal & Professor of Phyto Chemistry, Raghavendra Institute of Pharmaceutical Education and research, Ananthapuramu, Andhra Pradesh, India, for all his scholarly suggestions and critical review of each stage in my thesis progress. He showed real interest and motivated me from the very beginning of this work.

My deepest appreciation goes to my thesis co-supervisor, Prof. S.V. Satyanarayana, Director and Professor in Chemical Engineering Department, Research & Development, JNTU Anantapur, Ananthapuramu for his valuable support, suggestions and massive encouragement for success of my thesis work.

I am very grateful to Dr. Y. Padmanaba Reddy, Professor and Principal of Raghavendra Institute of Pharmaceutical Education and research, Ananthapuramu, Andhra Pradesh, India, for his encouragement, cooperation and necessary help.

My thanks also go to Prof. P. Ramalingam, HOD of analysis, Raghavendra Institute of Pharmaceutical Education and research, Ananthapuramu, Andhra Pradesh, India, for his continuous valuable feedback and guidelines to improve the quality of my work. Hours of discussion with him were the best learning experience in my life.

I would like to thank Dr. C. Sowmya, who as a good friend, for valuable advice on my work, spending her precious time to read this thesis and gave her valuable suggestions.

It’s my pleasure to acknowledge Mrs. K.V. Lalitha, M. Pharm. and Mrs. U. Usharani, M. Pharm. for their constant encouragement and hard questions.

I would also like to thank Mr. S. Nagarjuna M. Pharm., Dr. M. Jaffar Sadiq, Mr. B. Srinath, M. Pharm, and Dr. P. Sujatha for their encouragement and help with my biological evaluation and statistical studies.

It is also a pleasure to express my thanks to my friends and colleagues, Dr. K. Somasekhar Reddy, Mr. C. Suryaprakash Reddy, Mr. Badri, for their care and moral support.
I also wish to thank Ankireddy, harinath Reddy, Naresh babu and Sharma for their cooperation throughout the work.

I also wish to thank to my student friends Dr. B. Rajarajeshwari, Dr. S. Rubiya, B. Amulya, K. B. Naveena, N. Vineela for their support, encouragement, personal attention to complete my thesis.

I express my thanks to the Institutional Animal Ethical Committee for giving an ethical clearance of animal study for my dissertation.

We submit our gratitude to Sophisticated Analytical Instrumental facilities, Laila Implex, R&D Centre, Vijayawada for their timely help in spectral analysis.

In additional, I would like to convey my special thanks to all other teaching and non-teaching staff of the Raghavendra Institute of Pharmaceutical Education and Research (RIPER), Ananthapuramu, for their emotional support and help extend during my research work.

This is a major milestone in my life, for which I wish to thank my parents late Dr. M. Krishna Reddy and late Smt. M. Venkatalakshmamma, my in-laws brothers, sister-in-laws, brother-in-laws and sisters, without whom this would not have been possible. Their unconditional love and constant support over the years is something that I cannot thank them enough for.

My elder brother M. Sudhakar Reddy always puts education as a first priority in my life, and raised me to set high goals for myself. I thank him for his love, his support and his confidence throughout my higher education.

I am profoundly thankful to my husband Dr. B. Chandra Mohana Reddy, for his support, love, patience, constant encouragement and care towards my research and my life. I thank my son Chi. B.V. Vamsi Krishna Reddy, who provided an additional and a joyful dimension to our life mission.

Last, but not least, I thank all my colleagues and friends for their dedicated support during my research study.

M. GEETHAVANI
