## List of Figures

1. Figure: 4.1. Mean pre and post-test anxiety scores of cancer patients in Stages II and III  
   *Page No.* 86

2. Figure: 4.2. Mean pre and post (after biofeedback) anxiety scores of Cancer patients in stage I  
   *Page No.* 87

3. Figure: 4.3. Mean pre and post (after biofeedback) anxiety scores of Cancer patients in stage III  
   *Page No.* 88

4. Figure: 4.4. Mean pre and post-test stress scores of cancer patients in Stages II and III  
   *Page No.* 91

5. Figure: 4.5. Mean pre and post (after biofeedback) stress scores of Cancer patients in stage II  
   *Page No.* 92

6. Figure: 4.6. Mean pre and post (after biofeedback) stress scores of Cancer patients in stage III  
   *Page No.* 93

7. Figure: 4.7. Mean pre and post-test anxiety scores of primary caregivers of cancer patients in Stages II and III  
   *Page No.* 96

8. Figure: 4.8. Mean pre and post (after biofeedback) anxiety levels of primary caregivers of cancer patients in experimental group in stage II  
   *Page No.* 97

9. Figure: 4.9. Mean pre and post (after biofeedback) anxiety levels of primary caregivers of cancer patients in experimental group in stage III  
   *Page No.* 98

10. Figure: 4.10. Mean pre and post-test stress scores of primary caregivers of cancer patients in Stages II and III  
    *Page No.* 100

11. Figure: 4.11. Mean pre and post (after biofeedback) stress scores of primary caregivers of cancer patients in experimental group in stage II  
    *Page No.* 101

12. Figure: 4.12. Mean pre and post (after biofeedback) stress scores of primary caregivers of cancer patients in experimental group in stage III  
    *Page No.* 102

13. Figure: 4.13. Mean reduction in the stress scores of male and female caregivers (experimental group) of cancer patients  
    *Page No.* 108
