Acknowledgement

Undertaking this Ph.D. has been an extensive learning experience for me and it would not have been possible without the support and guidance that I received from many people around me.

First of all, I would like to thank my Ph.D. Supervisor Prof. Anisur Rahman Khuda-Bukhsh, without whose support and guidance this journey could not have been completed. His constant monitoring and valuable suggestions helped me immensely in planning and proceeding with my research work. I would also like to express my awe and respect to Dr. (Mrs.) Amiya Khuda-Bukhsh.

I would like to appreciate the efforts of my research work collaborators- Dr. Sourav Roy, University of California, Riverside and Dr. Manindranath Bera, Department of Chemistry, University of Kalyani who provided me with constant help and suggestions with experimental as well as analytical work.

I would also like to acknowledge the Head, Department of Zoology, University of Kalyani for his support in providing me with the infrastructure of the department without which carrying out my thesis work would not have been possible.

I would like to thank Boiron Laboratory, Lyon, France for financially supporting my work.

I would like to thank some really important people who have helped me to reach this level and built the base for the foundation of my venture into the field of research, Dr. Subhasish Batabyal, Head, Department of Veterinary Biochemistry, West-Bengal University of Animal and Fishery Sciences, my summer project mentor and Mrs. Kirana Sekhar, my teacher, faculty of Microbiology Garden City College, Bangalore University, for guiding me right from the days of my graduation and for believing in me.
