

## ACKNOWLEDGEMENT

---

This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people. At the end of my thesis I would like to thank all those people who made this thesis possible and an unforgettable experience for me.

At this moment of accomplishment, first of all I pay my deepest gratitude to my Supervisor, Prof. Animesh Kumar Datta, Department of Botany, University of Kalyani. This work would not have been possible without his guidance, support, encouragement, consistent involvement and paramount contribution. Under his guidance I successfully overcame many difficulties and learned a lot. I have been extremely lucky to have the Sir as my supervisor. His unflinching courage, dedication, honesty and conviction will always inspire me, and I hope to continue to work with his noble thoughts.

I would like to express my whole hearted and deepest regards to my mother, my brothers and sister and all family members who were always by my side, helping me and supporting me. I will never forget the love, concern, encouragement, spontaneous contribution, co-operation and inspiration of all my family members. I deeply miss my father who is not with me to share this joy.

I humbly submit my indebtedness to Prof. Gour Gopal Maiti and Dr. Sudha Gupta for their encouragement, guidance, love and generous and spontaneous help in taxonomical and palynological studies as and when needed.

I am grateful to the University of Kalyani as well as Department of Botany for providing me all necessary facilities to carry out my research work. My sincere thanks go to the Heads of the Department (Prof. Animesh K. Datta, Dr. S. N. Sinha and Dr. S. Roy) for their kind help during my tenure of research work.

I am also thankful to my Lab. seniors Dr. Sanjay Poddar, Dr. Subhendu Kumar Rang, Dr. Koushik Sengupta, Dr. Aditi Saha, Dr. Sonali Sengupta, Dr. Rita Paul, Dr. Anindita Mukherjee, Dr. Moumita Mukherjee, Dr. Mohsina Iqbal, Dr. Sandipan Chowdhury, Dr. Susmita Maity, Dr. Ananya Das and Dr. Babita Saha for their valuable suggestions.

## ACKNOWLEDGEMENT

---

I also extend my gratefulness and thankfulness to my fellow lab. mates namely, Sudip Kumar Das, Suchetana Mukherjee, Dr. Benoy Kumar Ghosh, Aninda Mandal, Sandip Halder, Aweek Samanta and Debadrito Das for their constant encouragement, suggestions and various helps rendered during the work and also for all the fun we had in the last few years. Above all my special thanks go to Aninda Mandal, who as a good friend and brother was always willing to help and give his best suggestions during my research work.

My special thanks to Mr. Ranjan Kirtania (our lab. assistant) for his valuable assistance both in lab. and in field works without which this work could not have been completed.

I would like to acknowledge Dr. Siraj Datta, Head, Department of Biotechnology, Haldia institute of Technology, for his restless help in my work.

I am thankful to my college authority and my colleagues for their kind co-operation and support without which I could not complete my work smoothly.

Finally, I would like to express my gratitude to the all Faculty Members, Staff, Research Scholars of the Department of Botany, University of Kalyani for their continuous support and encouragement throughout my research work.
