Acknowledgement

I am mighty glad to submit this thesis to the esteemed North Maharashtra University, Jalgaon for the fulfillment of the degree of Doctor of Philosophy in Chemistry (Faculty of Science). While prosecuting this research work, I received valuable guidance and co-operation of some individuals and authorities due to which I could complete this work successfully.

At the very outset, I would like to render my heartfelt thanks to my guide Dr. S. I. Rajput, Ex. Principal, B.P. Arts, S.M.A. Science and K.K.C. Commerce College, Chalisgaon for his keen interest, inspiring encouragement, sincere and precious guidance given to me during the course of this research work.

I record my thanks to Hon'ble President Dr. M.B. Patil, Hon'ble Secretary Shri. A.B. Nikam, all members of managing board R.S.S.P. Mandal Ltd., Chalisgaon, Principal B.V. Chavan and Vice Principal A.W. Bagad, Rashtriya Arts, Science and Commerce College, Chalisgaon for doing a favour to me by granting leave.

I express my sincere gratitude to Hon'ble President Adv. N.M. Suryawanshi, Hon'ble Vice President M.S. Patil, Shri N.M. Agrawal, Chairman, all members of managing board Chalisgaon Education Society, Principal Dr. G.P. Wani, and Prof. N.M. Hundiwale, Head, Department of Chemistry, B.P. Arts, S.M.A. Science and K.K.C. Commerce College, Chalisgaon who obliged me by giving
permission to prosecute research work in the recognised well-equipped chemistry laboratory of their college.

I am extremely indebted to the authorities of University Grants Commission, New Delhi for awarding Teacher Research Fellowship under Faculty Improvement Programme and also Prof. R.S. Mali, Ex-Vice Chancellor, Prof. S.B. Chincholkar, Director BCUD, Prof. D.G. Hundiwale, Prof. U.R. Kapdi, Dr. S.L. Patil, Dr. P.P. Mahulikar, Dr. (Mrs.) R.S. Bendre, Prof. Shivajirao Patil, Ex-Acting Vice Chancellor and Dean of Science Faculty, Prof. A.M. Patil, Chairman BOS in Chemistry, North Maharashtra University, Jalgaon for their keen interest, fruitful discussions, constant encouragement and kind co-operation given to me during the course of this work.

I am immensely grateful and indebted to Hon’ble President Dr. D.R. Shekhawat, Vidyabharti Shaikshanic Mandal, Amravati. Principal Dr. K.N. Patil, Dr. A.G. Doshi, Head Department of Chemistry, Vidyabharti Mahavidyalaya, Amravati for granting permission for providing the library facilities and research infrastructure to carry out physico-chemical work of Chapter six of this thesis.

I take this opportunity to thank Dr. N.J. Chikhale, Reader, Biotechnology Department, Sant Gadgebaba Amravati University, Amravati for providing the research infrastructure and valuable guidance to carry out microbial activities of newly synthesised research samples of Chapter five of this thesis and also Dr. M.L. Narwade, Vidyabharti Mahavidyalaya, Amravati, Dr. B.B. Wayker and Dr. K.B. Bendre, Rashtriya Arts, Science and Commerce College, Chalisgaon, for co-operation and fruitful discussion in interdisciplinary work of Chapter five and six of this thesis.
I express my sincere thanks to the Director, IICT, Hyderabad, Director, NCL, Pune for providing library facilities. I also express my sincere thanks to Prof. D.D. Dhawale, Department of Chemistry, Pune University, Pune, Dr. S.P. Chavan and Mr. M.V. Sonar, Division of Organic Chemistry, National Chemical Laboratory, Pune for spectral and other analytical data.

I am thankful to Pravin Nerkar (Nerkar Electronics, Amravati) for excellent typesetting and printing of my thesis.

I herewith gratefully acknowledge my better-half Sau. Pratibha, daughter Bhagyashri, son Shriram, all through the preparation of this work maintained healthy and happy atmosphere in home and stood by me through thick and thin which brought this work to fruition. I remain in their gratitude forever.

I record my sincere thanks to sisters, brothers, relatives, friends, colleagues and laboratory staff, for their inspiration and co-operation given to me during my research work and also to those who contributed directly or indirectly to the completion of this study.

P. J. Parmar
