Acknowledgements

In the name of Allah, the Most Gracious and the Most Merciful,

Allamudulilah, all praise is to Almighty Allah, verily to him is owed all thanksgiving and gratitude. I bow before Allah for all the blessings showered upon me till date, and endowing me with that capacity that made this humble effort possible. My accomplishments would be incoherent without a formal salutation to the enigmatic force of that Almighty, who guided me in every difficult moment and gave me the strength and courage to surge ahead in this onerous task.

It is an honor to receive guidance and favors from towering personalities and I suppose myself more blessed for having received this distinction from the galaxy of such distinguished stars who have not only enlightened my knowledge in this field and made this work possible but have also, through their pearls of experience, enriched the treasure of my mind; the indebtedness of which, guidance that I most humbly received with zeal and zest. I know not in what terms to acknowledge, yet, I most humbly take this opportunity to pay reverences to few of them.

With deep sense of pride and dignity, I fervently express my adoration, indebtedness and gratitude to my supervisor Professor Khusroo Alam for his expert, valuable and tireless guidance during my research work. His methodological approach and productive way of criticism helped me a lot in producing this thesis. He scrutinised my work with painstaking efforts. Apart from my research work, his motivating counselling to attend various scientific conferences helped me to move forward in the direction of science. Because of his swift execution, deep scientific vision, and innovative ideas, I learned to prepare manuscripts in which he helped me in an unmarred manner. Only from him I have procured the skill of analysis and re-analysis and a penchant for perfection. His broad knowledge, critical thinking and hard working are of most value for me.
I seize this opportunity to express my utmost regards to my co-supervisor Prof. Jamal Ahmad for his keen interest and valuable suggestions during the entire period of my research.

I pay my sincere and cordial regards to Prof. Najmul Islam, Chairman Department of Biochemistry, J.N.M.C. and Prof. Asif Ak for their benign co-operation for departmental development and instrument facility.

I emphatically owe my sincere and heartiest thanks to Dr. Moinuddin and other faculty members for their flawless suggestions and constructive comments.

My veracious thanks goes to Dr. Kiran Dixit for her unflagging encouragement during the course of my study. Her wise counsel has honed my perception and scientific application. Apart from being a senior, she was just like a friend. She not only guided me in my research work but also uplifted my depressed mood, by entertaining me with her huge repertoire of anecdotes and stories. She also made me to believe that a healthy mind resides in a healthy body.

I am also grateful to Dr. Zarina Arif for her consistent and timely support which helped me in completing this arduous task.

It has been a great privilege to spend so many years in the Lab 3 of my department and the best and worst moments of my doctoral journey have been shared with many people. Words fall short when I talk about my seniors Dr. Shaheem Ahmad and Mr. Jalaluddin Mohammad Ashraf. I was fortunate enough to have lively and jovial company of them. They made me acquainted with the handling of instruments and practical knowledge. Their selfless help through every walk of life during my PhD tenure was priceless. They will always remain dear to me.

A saying is that “The meeting of two personalities is like the contact of two chemical substances if there is any reaction both are transformed” I would like to avail this chance to extend my thanks to my dearest friend Mrs. Uzma Shaheem who completely transformed my life and brought the best out of me. Her presence doubled
my joy and divided my grief. We share a bunch of unforgettable memories. She'll always be loved by me.

I am highly thankful to my colleagues Farzana wasi and Saman Ahmad for their friendly discussions. I am also thankful to my juniors Badar-ul-Islam, Yasir, Rouf, Parvez, Dr. Sana and Dr. Jyoti for their help and cooperation extended to me.

I am also grateful to my ex-seniors Dr. Mohd. Asad Khan, Rafa Gulzar Khaki, Dr. Nishtha Jain, Dr. Medha Priyadarshani, Dr. Shams tabrez, Dr. Iftekhar Hassan and Dr. Sandesh Chibber for their timely help and support.

I would like to thank my ex-room mate Yasmin Khan for the care and love showered upon me by her. She gave me moral support and encouragement during the most difficult situations and turned a frightful me to a delightful me. Beautiful moments spent with her while sharing tea-cups will always be cherished in my heart and shall be treasured long in the memory.

I am extremely thankful to my friend cum sister Shamim Bano for her support during my most depressing days. Profuse thanks to my room mates Sadaf and Falmina for being with me whenever I needed. Thanks goes to my juniors in hostel Nida, Azmi, Darakshan, Shadma, Shamsi, Hira, Nivedita and Amen. They used to entertain me by their notorious talks.

My heartful thanks goes to my friend cum junior Zakida whose thoughtfulness often seemed to be a shady tree.

No words could adequately convey thanks to my brother Sukail Ahmad for his indispensable advice and thoughtful suggestions. He has always been a source of inspiration for me.

I am at loss of words in expressing my feelings for my cousin Dr. Zubair Ahmad, there are certain people in everyone's life whose best wishes and blessings pave the way towards success and you are one like them, thanks for understanding me and helping me to understand myself better.

Emotions of heart find new boundaries when I recall my aunt Renu, whose affection cannot be reciprocated in words but are to be felt in the deepest core of my
heart. She kept me high even during the moments of despondency and inspired me to accomplish this job successfully. Nostalgia prevails over me as I recall the innocent faces of my cousin Ziya and Yakhshah. Their chirping voice, used to give me a kind of rejuvenation that I need to keep going. Love showered upon me by my Grandparents (Abba and Pabi) is hardly forgettable.

This note of acknowledgement will be incomplete without a profound delineation of the serene commitment, enlightening love and path showing inspiration which I was rewarded by my parents. I feel highly privileged, when I award them with the epithet of peerless asset, who revitalized my dream to live and theme to struggle with an eternal touch of dedication. Mere words can not substitute my feeling towards my father who worked day in and day out to make me stand here. Thanks goes to my sister for her resplendent nature.

The co-operation and assistance provided by the non teaching and technical staff of the Department of Biochemistry especially Mr. Mujahid, Mr. Shakabuddin and Mr. Nasir is duly acknowledged.

Finally the words of sincere appreciation goes to Mr. Bilal (Goldy bhai) and Mr. Nizam (Sholdy bhai), Rafiq complex, Aligarh for their intense endeavor in compiling this work, in a short span of time.

(Binish Ariji)
