

List of Figures

		Page No.
Chapter 2		
Fig. 1	Specific nomenclature for histamine positions.	8
Fig. 2.	Chemical structures of histamine H1-receptor antagonists.	18
Fig. 3.	Chemical structures of some histamine H1-receptor agonist.	19
Fig. 4.	The classical binding sites of histamine and their main signaling pathways.	23
Fig. 5.	Chemical structures of histamine H2-receptor antagonists.	26
Fig. 6.	Chemical structures of some histamine H2-receptor agonist.	27
Fig. 7.	Chemical structures of histamine H3-receptor antagonists.	36
Fig. 8.	Chemical structures of histamine H3-receptor agonists.	36
Fig. 9.	Chemical structures of specific H4-receptor-antagonists and –agonists.	39
Fig. 10.	The non-classical histamine binding sites and their main signaling pathways.	42
Fig. 11.	Histamine regulates monocytes, dendritic cells, T cells and B cells in lymphatic organs and subepithelial tissues in allergic inflammation.	48
Chapter 3.1.I.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titer in histamine-treated rabbits.	69
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titer in histamine-treated rabbits.	71
Fig.3.	SRBC-specific Immunoglobulin-G (IgG) production titer in histamine-treated rabbits.	72
Chapter 3.1.II.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titer in dose dependent histamine-treated rabbits.	82
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titer in dose dependent histamine-treated rabbits.	83
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titer in dose dependent histamine-treated rabbits.	84
Chapter 3.2.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titers in H1R-agonist/-antagonist-treated rabbits.	93
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titers in H1R-agonist/-antagonist-treated rabbits.	94
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titers in H1R-agonist/-antagonist-treated rabbits.	96
Chapter 3.3.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titers in H2R-agonist/-antagonist-treated rabbits.	105
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titers in H2R-agonist/-antagonist-treated rabbits.	107
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titers in H2R-agonist/-antagonist-treated rabbits.	109
Chapter 3.4.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titers in	118

List of Figures

	H3R-agonist/-antagonist-treated rabbits.	
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titers in H3R-agonist/-antagonist-treated rabbits.	119
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titers in H3R-agonist/-antagonist-treated rabbits.	121
Chapter 3.5.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titers in H4R-agonist/antagonist-treated rabbits.	130
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titers in H4R-agonist/antagonist-treated rabbits.	132
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titers in H4R-agonist/antagonist-treated rabbits.	133
Chapter 3.6.		
Fig. 1.	SRBC-specific Immunoglobulins (Igs) production titers in H1R-, H2R-, H3R- & H4R-agonist-treated rabbits.	144
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titers in H1R-, H2R-, H3R- & H4R-agonist-treated rabbits.	145
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titers in H1R-, H2R-, H3R- & H4R-agonist-treated rabbits.	146
Chapter 3.7.		
Fig.1.	SRBC-specific Immunoglobulins (Igs) production titers in H1R-, H2R-, H3R- & H4R-antagonist-treated rabbits.	157
Fig. 2.	SRBC-specific Immunoglobulin-M (IgM) production titers in H1R-, H2R-, H3R- & H4R-antagonist-treated rabbits.	158
Fig. 3.	SRBC-specific Immunoglobulin-G (IgG) production titers in H1R-, H2R-, H3R- & H4R-antagonist-treated rabbits.	160
Chapter 4.1.		
Fig. 1.	Photomicrographs of livers: (A) Control rabbits, (B) Histamine-treated rabbits.	173
Fig. 2.	Photomicrographs of livers: (A) H1R-agonist-treated rabbits, (B) H2R-agonist-treated rabbits.	174
Fig. 3.	Photomicrographs of livers: (A) H3R-agonist-treated rabbits, (B) H3R-agonist-treated rabbits.	175
Chapter 4.2.		
Fig. 1.	Photomicrographs of livers: (A) Control rabbits, (B) Histamine-treated rabbits, (C) H1R-antagonist-treated rabbits, (D ₁ & D ₂) H2R-antagonist-treated rabbits.	186
Fig. 2.	Photomicrographs of livers: (A & B) H3R-antagonist-treated rabbits, (C) DMSO-treated rabbits (D) H4R-antagonist-treated rabbits.	187
