ACKNOWLEDGEMENTS

It gives me great pleasure to thank my teachers, colleagues, friends and well wishers, who have all contributed to successful completion of the present work.

First and foremost I pay my profound gratitude to my learned guide and mentor Prof. Rashid Ali. Chairman, Department of Biochemistry, J.N. Medical College, AMU. Aligarh who charted my course from the very beginning. Without his adroit guidance this thesis would not have been possible.

I must also put on record my high appreciation for all the encouragement and help I received from Prof. Asif Ali, Dr. Khursheed Alam and Dr. Moinuddin. These words are the barest acknowledgement of their beneficence to me in my research endeavor.

My heartfelt thanks to Dr. Jalees Farhan, without whom this thesis would not have been possible. His encouragement and cooperation (coupled with his hilarious punch lines) at every stage made my work a smooth sail all the way.

I express my profound sense of respect and gratitude to all the assistance and cooperation I have received from my seniors especially Dr. Kiran, Dr. Farah, Dr. Farina, Dr. Safia and Dr. Fauzia for their helpful suggestions.

I am particularly thankful to my juniors i.e. Prashant, Nadeem, Asad, Vikrant, Sheeren and Humera for their willing cooperation throughout the duration of this work. Thanks are also due to the lab trainees Subuhi and Trivendra for their ambicale help and support.

I am highly indebted to my lab colleague Wahid, Zafar and Suraiya whose critical suggestions, moral support and guidance which not only provided me physical strength but mental peace as well for the accomplishment of this work.

My heartfelt thanks to my dear buddy Akbar Khan for all his favours big and small and spicy companionship all through.

I take special pleasure in acknowledging my friend Deeba S. Jairajpuri for their cooperation and valuable suggestions.
Thanks are also due to the non-teaching and technical staff of the Department of Biochemistry. Help extended by the staff of Central Photography Section is also appreciated.

I acknowledge my deep sense of gratitude to Prof. Moganty R. Rajeswari, Department of Biochemistry, All India Institute of Medical Sciences, New Delhi, for providing selfless help and necessary facilities to carry out valuable biophysical studies.

I am specially thankful to Prof. Abida Mallik, Department of Microbiology and Prof. Khalid Sherwani, Department of Orthopedics for providing me valuable samples to carry out my clinical studies effortlessly. They have been extremely patient and encouraging through the course.

Lastly I am highly indebted to my beloved, daddy (Mr. Majid Ali Khan), ammi (Mrs. Mehrun Nisa), brothers (M. Sajid Ali Khan and Imran Majid), brother-in-law (Saleem Hasan), sister (Iram Majid) and sister-in-law (Saba Khan) their affection, sacrifice and blessings brought me up to this stage so that I may successful complete this ultimately task of academic career. Their inspiration, initiative guidance, encouragement and patience enabled me to convert my dreams into reality.

Finally I salute all those people who believe that science is an enterprise of the spirit into matter.

(Mohd. Wajid Ali Khan)
