Acknowledgements.

I take this opportunity to acknowledge the immense guidance and inspiration I derived from my mentor, Dr. Maharaj Kishen Sahito, Scientist, Division of Biochemistry, Central Drug Research Institute, Lucknow. In fact, I have been an acolyte of his theoretical as well as experimental knowledge. He tried very hard to mould me from an immature student into a researcher. My expression of thanks is only a fraction of my indebtedness to him. I am much obliged to Dr. SM Habibul Haque and Dr. S.M. Hadi, Division of Biochemistry, Aligarh Muslim University, Aligarh, who, as my teachers as well as supervisors, has always been happy to render me any help I required. It is also to their credit that I could develop myself as a biochemist. My sincere thanks are due to Prof. A.M. Siddiqui, Prof. Wasiur Rehman, and Prof. A. Salahuddin, AMU, Aligarh, who as my teachers revealed the fascinating field of Biochemistry. I am indebted to Dr. Nitayanand, FNA, Director, CDRI, and Dr. V.K.M. Rao, Scientist-in-Charge, Division of Biochemistry, CDRI, for providing the necessary facilities to carry out this work. To Dr. S. S. Agarwal, Dept. Medicine and Dr. D.R. Singh, Dept. of Anatomy, King George's Medical College, Lucknow, goes my
special thanks for providing the clinical samples for experim-
-ents embodied in this dissertation. It has been a
privilege to carry out this research work in a department full
of friendly, intelligent and cooperative colleagues. I would
like to thank Harik Harikarn, Ann Sainoal, Anil Balapure,
Halima Mujeeb, Mohammad Akhlay, Reza Bansal,
Nafees Ahmad, Shailendra Saxena, Firoze Khan and
Prakash Dube for their kind assistance and friendly
discussions. I am also obliged to Mr. S.S. Sinha,
charge animal distribution unit, CDRI, Lucknow,
who provided the required numbers of experimental
animals to conduct the present work. Technical
assistance of Mr. S.K. Bose and H. Maurya is gratefully
acknowledged. Help rendered by Mr. S.H. Mehdi for photo-
graphy and S.C. Bhargava for preparing the typescript,
deserves all appreciation. Financial assistance of
Council of Scientific and Industrial Research, New
Delhi, India is gratefully acknowledged. Words
fail to come by which I can express my indebted-
ness to my lovable and kind hearted parents,
who did all their best efforts in bringing me
all possible happiness.
