List of Figures

Figure 1  Flow chart of sample recruitment ..................................................149
Figure 2  Age wise distribution of the participants ........................................156
Figure 3  Gender wise distribution of the clinical group and the matched group....157
Figure 4  Education wise distribution of the participants ..............................158
Figure 5  Distribution of the participants based on birth order......................160
Figure 6  Distribution of the participants based on socio-economic status.........162
Figure 7  Distribution of the participants based on family type ......................165
Figure 8  Distribution of the participants based on place of residence ............167
Figure 9  Distribution of the participants based on mother’s education ..........169
Figure 10 Distribution of the participants based on father’s education ............171
Figure 11 Distribution of the participants based on mother’s occupation .........174
Figure 12 Distribution of the participants based on father’s occupation ...........176
Figure 13 Distribution of the participants based on participation in
extracurricular activities .............................................................................179
Figure 14  Distribution of the participants based on school attendance…………………182

Figure 15  Distribution of the participants based
on their school performances………………………………………184

Figure 16  Distribution of type of clinical sample based on
time of onset of the disorder………………………………………186

Figure 17  Distribution of the participants based on history of
mental illness in the family………………………………………187

Figure 18  Distribution of the participants based on alcohol consumption…………189

Figure 19  Distribution of the participants based on the habit of smoking…………191

Figure 20  Distribution of the participants based on smoking
habit in the family…………………………………………………192

Figure 21  Prevalence of drug abuse among the participants…………………..194

Figure 22  Prevalence of dysfunctional families among the participants…………196

Figure 23  Age wise distribution of alcohol consumption among
conduct disordered children………………………………………199

Figure 24  Age wise distribution of smoking among
conduct disordered children………………………………………201
Figure 25  Age wise distribution of conduct disordered children based on drug abuse ................................................. 203

Figure 26  Gender wise distribution of conduct disordered children based on the history mental illness in the family ............... 204

Figure 27  Gender wise distribution of conduct disordered children based on smoking in the family .............................................. 206

Figure 28  Gender wise distribution of conduct disordered children based on dysfunctional family .............................................. 207

Figure 29  Consumption of alcohol based on the birth order of conduct disorderd children ................................................. 210

Figure 30  Smoking of conduct disorderd children based on birth order .............................................................................. 211

Figure 31  Birth order of conduct disordered children based on use of illicit drugs ............................................................... 213

Figure 32  Socio-economic status of conduct disordered children based on history of mental illness in the family .................... 215
Figure 33 Socio-economic status of conduct disordered children based on alcohol consumption

Figure 34 Socio-economic status of conduct disordered children based on smoking

Figure 35 Socio-economic status of conduct disordered children based on smoking in the family

Figure 36 Socio-economic status of conduct disordered children based on drug abuse

Figure 37 Socio-economic status of conduct disordered children based on dysfunctional family

Figure 38 Family type of conduct disordered children based on history of mental illness in the family

Figure 39 Family type of conduct disordered children based on alcohol consumption

Figure 40 Family type of conduct disordered children based on smoking

Figure 41 Family type of conduct disordered children based on smoking in the family

Figure 42 Family type of conduct disordered
children based on drug abuse........................................231

Figure 43  Family type of conduct disordered children

based on dysfunctional families........................................234

Figure 44  History of mental illness in the family of CD children

based on their place of residence.....................................237

Figure 45  Alcohol consumption of CD children based on their

place of residence..........................................................239

Figure 46  Smoking of CD children based on their place of residence...........240

Figure 47  Smoking in the family of CD children

based on their place of residence.....................................242

Figure 48  Drug abuse of CD children based on their place of residence........244

Figure 49  Dysfunctional family of CD children

based on their place of residence.....................................249
