Acknowledgements

It gives me pleasure to express my deep sense of gratitude to my guides Dr. V.S. Manickam S.J., Department of Botany, St. Xavier’s College (Autonomous), Palayamkottai 627 002, Tamil Nadu and Dr. S. Gopalakrishnan, Reader in Organic Chemistry, Manonmaniam Sundaranar University, Palayamkottai 627 002.

I record my deep sense of gratitude to Dr. V.S. Manickam for his valuable guidance in all the field trips, for his kindness in allowing me to use his field data, for his patronable advice and critical comments and for his constant encouragement and keen interest, liberality and affection on all directions throughout this work.

With profound sense of gratitude, I express my indebtedness to Dr. S. Gopalakrishnan for his unmeasurable guidance in the field of phytochemistry. I sincerely express my thanks to him for his help, inspiration, advice and painstaking reflections on the contents of this study. I place on record his affection towards me.

The efforts and kind blessings of Rev. Fr. Antony A. Pappuraj S.J., Principal, St. Xavier’s College (Autonomous), Palayamkottai and Rev. Dr. Francis M. Peter S.J. the former Principal are evergreen in my memories. I owe my sincere thanks to them for their abundant magnanimity, support and encouragement shown to me for the successful completion of the work.

I am deeply indebted to Rev. Fr. P.J. Ubelmesser S.J., Nurnberg, Germany, Rev. Fr. Hubert Hangii S.J., Zurich, Switzerland and Rev. Fr. Provincial, French Jesuit Province, Paris, France for their generous and continuous financial support received through Rev. Dr. V.S. Manickam.

My thanks are also due to Rev. Fr. Jeyapathy S.J., the former Secretary, Rev. Fr. M. Sebastian S.J., the present Secretary and Fr. Peter Xavier S.J., the former Rector and Fr. Albert Muthumalai S.J., the present Rector whose encouragement and assistances helped me to get through and complete this work.
I owe love and gratitude to Rev. Fr. Dr. S. Ignacimuthu S.J. the former Principal of the College, presently the Principal of Loyala College, Chennai and the Director of Entomology Research Centre, Loyala College whose apex contributions have made my efforts to come out in the form of Scanning Electron Microscopic photographs. I find no words to express my thankfulness to him.

My sincere thanks are due to Dr. J.X. Arachi, former Head of the Department of Botany, one among the architects who built up confidence and efficiency in me. He made my efforts a fully blossomed one technically by developing the photomicrographs. I sincerely acknowledge his love, blessings and guidance at hours of need.

I sincerely thank Dr. V. Irudayaraj, Associate Scientist, ERRC, Thiruvananthapuram for his keen interest, encouragements, suggestions and great help in appropriate instances especially in taking photographs.

I must express my grateful appreciation for the help rendered by Prof. James W. Wallace, Department of Biology, North Carolina, Western Carolina University, U.S.A. for helping me to elucidate the structures of the flavonoid compounds isolated.

I also express my sincere gratitude to Dr. P.T. Manoharan, the Head, RSIC, Indian Institute of Technology, Chennai, for helping me to analyse the elements, to The Director, UPASI, Tea Research Institute, Valparai, to Dr. Edwin Chandrasekar, Principal, Bishop Heber College, Tiruchirapalli and to Dr. P.K.K. Nair, ERRC, Thiruvananthapuram for their kindness and timely help.

Thanks are also due to Mr. Viswanathan and Mr. Janakiraman soil chemists, Land use and soil survey organisation, Tirunelveli for their sincere help in discussing the soil characteristics.

With great pleasure I extend my heartfelt thanks to Prof. A. Arockiasamy, Head of the Department of Botany and my dear colleagues for their encouragement and timely help. Let those noble people graciously accept my gratitude and thanks.

I am especially thankful to Mrs. Jeya Shanthi, Centre for Biodiversity and Biotechnology who was of immense help to me, in ways more than one and particularly in the computational works.
I am pleased to express my sincere appreciation to Mr. N. Viswanathan, Mr. Murugaperumal, and Mr. E. Arul Prasanna of Global Graphics, Mr. Sabapathi, Muthulakshimi Press, Palayamkottai, and Mr. R. Muthukumar, Yogi Ram Xerox, Palayamkottai. They readily offered technical assistance in times of need.

I am extremely thankful to the Research scholars and staff of Centre for Biodiversity and Biotechnology who have helped me a lot during the preparation of the thesis.

My thanks are also due to Mr. S. A. Arockiasamy, my uncle for carefully going through the manuscript and for correcting the typographic errors.

My wife Helen, sons Harris & Herold, my parents, relatives and friends understanding the plight of a researcher made it possible for me to devote all my time and attention for research by relieving me from responsibilities of the family. Their concern and genuine interest prompted me to complete this work with greater enthusiasm and vigour to all of them I owe a debt of gratitude.

Last but not least I must record my gratitude to the Almighty for HIS IMMENSE MERCY.
