

LIST OF TABLES

		PAGE No.
Table 3.1	Satellite characters of IRS-1A, Landsat and SPOT	24
Table 3.2	Spatial data, their source and type	32
Table 3.3	Non-spatial attribute data	32
Table 3.4	Data structure and their key	35
Table 4.1	Spectral characteristics of IRS – 1 A and their applications	49
Table 4.2	Landform units, their definition and image characters	57
Table 4.3	Soil types and their characters	61
Table 4.4	Soil characteristics of the study area	63
Table 4.5	Land use / Land cover classification system (NRSA)	69
Table 5.1	Different landform units and their areal extent	79
Table 5.2	Different soil types and their areal extent	80
Table 5.3	Different classes of groundwater parameters and their weightage	84
Table 5.4	Association of terrain parameters with ground water potential zones	87
Table 5.5	Percentages of areal extent of groundwater fluctuation zones during winter season	95
Table 5.6	Percentages of areal extent of groundwater fluctuation zones during summer season	99
Table 5.7	Percentages of areal extent of groundwater fluctuation zones during southwest season	103
Table 5.8	Percentages of areal extent of groundwater fluctuation zones during northeast season	107
Table 5.9	Long-term changes in areal extents of various zones of groundwater level fluctuations	110

	PAGE No.
Table 5.10 Association of terrain parameters and water level fluctuation zones.	112
Table 6.1 Various groundwater quality parameters and their range of values	118
Table 6.2 Percentages of areal extent of different zones of EC during pre-monsoon	123
Table 6.3 Percentages of areal extent of different zones of Na ions during pre-monsoon	124
Table 6.4 Percentages of areal extent different zones of Cl ions during pre-monsoon	126
Table 6.5 Percentages of areal extent of groundwater quality zones during pre-monsoon	130
Table 6.6 Percentages of areal extent of different zones of EC during post-monsoon	132
Table 6.7 Percentages of areal extent different zones of Na ions during post-monsoon	133
Table 6.8 Percentages of areal extent of different zones of Cl ions during post-monsoon	135
Table 6.9 Percentages of areal extent of groundwater quality zones during post-monsoon period	139
Table 6.10 Association of landforms and groundwater quality zones	144
Table 7.1 Raster data sets used for groundwater environment analysis and comparison with land use	148
Table 7.2 Percentages of areal extent of groundwater environment zones during pre-monsoon	154
Table 7.3 Percentages of areal extent of groundwater environment zones during post-monsoon	158
Table 7.4 Land use units and the related groundwater components	168
