ACKNOWLEDGEMENT

The author expresses his deep sense of gratitude with profound indebtedness to his guide Dr. A.V.Lakshmanan, Associate Director, Cancer Institute, Madras for his inspiring guidance and scholarly advice to carry out the work neatly.

The author's profound and sincere thanks are due to his co-guide, Prof. S.Natarajan, Department of Physics, Anna University for his nice words of encouragement and for the help he rendered with pleasure.

The author takes this opportunity to thank Dr. S.Krishnamurthi, Adviser and Dr. V.Shanta, Director and Scientific Director, Cancer Institute, for having permitted gracefully to do part-time research work.

The author sincerely expresses his thanks to Dr. I.S.Balakrishnan and Mr. R.Jayaraman, Physicists, Cancer Institute, for the invaluable help they offered which cannot be forgotten forever. Similarly the author wishes to place on the record, his thanks due to Prof. P.Ramasamy, and Dr. G.N.Sivarama Prasad, Department of Physics, Anna University and Dr. M.Udayachandar, Head, Biochemistry Department, Cancer Institute for their encouraging words and best wishes.
