ACKNOWLEDGEMENTS

The author wishes to express his deepest gratitude to his research supervisor Dr. A.R. SANTHAKUMAR for his excellent guidance and enthusiastic encouragement throughout this research work.

He is gratefully indebted to Dr. T.V.S.R. Appa Rao, Deputy Director, Structural Engineering Research Centre (SERC), Taramani, Madras for sharing his extensive knowledge in reliability concepts and also to Dr. C.S. Krishnamoorthy, Professor, Dept. of Civil Engineering, Indian Institute of Technology, Madras for sharing his vast knowledge on finite element analysis and computer applications. He is also indebted to Dr. K. Manivachakan, Assistant Professor, Dept. of Mathematics, Anna University for teaching the advanced course on probability and statistics.

The author personally expresses his deepest gratitude to Dr. A. Karamchandani, Dr. R. Rackwitz, Dr. J.F. Fleming, Dr. A.M. DiGiola Jr., Dr. W.H. Mueller, Dr. G. Orawski, Dr. R. Paschen and Dr. Y.K. Wen, for providing valuable information and their suggestions regarding the research work.

His special thanks are due to Mr. R. Susendran, Joint Director, Central Power Research Institute (CPRI), Bangalore for extending his valuable suggestions.
The author expresses thanks to Dr. A. Swamidurai, Dr. A. Elangovan, Dr. N. Chittaranjan, Dr. Bh. Nagabhushana Rao and Dr. G.M. Samuel Knight, faculty members of Civil Engineering, Anna University, for their valuable suggestions during the preparation of the manuscript.

The author would also like to thank the Director, Bangladesh Institute of Technology, Chittagong for his constant encouragement during the research work.

His sincere appreciations are also due to Mr. K. Narayanan and Mr. V. Jaisanker for going through the manuscript and providing valuable suggestions.

The author also wishes to thank all of his friends who helped him in various ways.

Last, but not least, the author is very grateful to his parents, brothers and sisters, especially to his eldest brother Er. M.H. Kabir, his wife and children, Rozar and Noel, for their continuous support and encouragement throughout the research period.
