ACKNOWLEDGEMENT

The thesis comprises the work done by me in the Department of Mathematics, Anna University, Chennai during 1993-1998.

I express my sincere gratitude to my guide Dr. V. Sridharan, Assistant Professor, Department of Mathematics, Anna University for his guidance, painstaking efforts and constant encouragement throughout the course and also during the preparation of this thesis.

I am deeply indebted to Prof. M. Sreenivasan, Head, Department of Mathematics, Anna University for his constant encouragement. I am indebted to Prof. R. Natarajan, Dean of Science and Humanities, Anna University for his help and advice throughout the course. I thank my Doctoral committee members Prof. P.R. Parthasarathy, Head, Department of Mathematics, Indian Institute of Technology, Chennai and Prof. A. Vijayakumar, Department of Mathematics, Anna University, Chennai for their valuable suggestions at various stages of my work.

I am also grateful to the authorities of Anna University, Chennai for providing adequate research facilities to carry out the work.
I take this opportunity to thank Dr. Suniti Solomon, Dr. Kumarasamy and others in YRG Care, a social organisation for creating awareness about AIDS, who gave me an insight into the life cycle of HIV.

I wish to thank my friend Mr. P. Mohanavadiyu for his help during the course of this work.

I also take this opportunity to thank Mr. P. S. Aravamudhan for lending his computer to carry out my research work. I also thank Miss. K. Ananthi for her assistance to carry out the typing work of this thesis.

Finally I thank the University Grants Commission for awarding the Junior and Senior Research Fellowships.

(P.R. JAYASHREE)
