ACKNOWLEDGEMENT

The author is highly indebted to Dr. S. Krishnamurthi, Assistant Professor, Department of Electronics, MIT, Anna University for his excellent guidance, encouragement and motivation by providing the right ambience in Medical Electronics Laboratory, my work place. I am highly indebted to Dr. A. Mathialagan, Former Dean, MIT for his inspiration and support during the course of this work. The author is grateful to Dr. S. Chandrasekaran, Head In-Charge, Computer Centre for his valuable co-operation offered during this period. The author thanks Dr. S. Renganathan, Dean of Faculty of Engineering (MIT) for his timely help and also his advice at various stages. I am expressing my gratitude to Mrs. T. C. Bina, D. Vidya and the Staff members of the Department of Electronics, MIT for their moral support during this period of the research work. I am greatly indebted to Mr. B. Vinayaga Sundaram, for his kind help during this work. I am in a position to thank my colleagues R. Chandarsekaran, I. Ruth mangani and R. Vasanthi Research Scholars in the Physics department, MIT Campus for their company during my research work. I would like to recall the prolonged moral support offered by my family members and relatives. I thank all the staff members and student-friends in MIT Campus for their co-operation in completing this research work. I would like to recall the pleasant memories with my true and best friend Mr. V. K. Madhava Ragavan (Late) and dedicate this thesis to our true friendship.

A. Srinivasan
