ACKNOWLEDGEMENT

The pursuit of this research endeavour would not have reached its fruition but for the able guidance of Dr. K. Dharmalingam, Professor and Head of High Voltage Engineering and Director of School of Electrical and Electronics Engineering, Anna University, Madras - 25. The author records his deep sense of gratitude for the inspiring guidance and invaluable suggestions offered at all stages of the thesis work.

The author expresses his thanks to Dr. M.A. Panneerselvam, Professor of Electrical Engineering for his valuable suggestions. The author is thankful to Dr. K. Udayakumar, Assistant Professor of High Voltage Engineering for his help and constructive criticisms at various stages of this thesis.

The author takes this opportunity to express his heartfelt indebtedness to Dr. R.M. Umesh, Post Doctoral Fellow for his invaluable suggestions and discussions. In the design and construction of the model, the help extended by Mr. V. Jeyashankar and Miss. S. Usa are greatly acknowledged.

The author is grateful to Dr. S. Natarajan, Professor and Head of the Department of Physics for providing the facilities in the Laser Laboratory. The author acknowledges with thanks Dr. P.K. Palanisamy, Assistant Professor of Physics for all the helps extended by him during the course of experimentation.

The author places on record, his thankfulness to Dr. T.R. Natesan, Director of Technical Education, and authorities of Anna University for permitting to pursue the research work and providing the facilities during the work.
