Acknowledgement

I express sincere thanks to Prof. M. I. Bhat, Head, Department of Geology and Geophysics, University of Kashmir, Srinagar for supervising my research work. I am deeply indebted to Mr. M. J. Ahmed (my co-supervisor), Ex. General Manager, Jiaprakash Industries Ltd (presently General Manager, Geotechnical Department, Arab Centre for Engineering Studies (ACSE UAE) for guiding me in the field and making arrangements for my field work at Baglihar Hydroelectric Project site. Thanks are due to Jaiprakash Industries Ltd. For allowing me access to their laboratory facilities and for providing logistic support during field work from time to time.

I thank the Commonwealth Scholarship Commission of the United Kingdom for the award of one year Split-Site Doctoral Fellowship Programme at Imperial College London. It was under this award that I learnt techniques in rock mechanics under Dr. John Harrison, Senior Lecturer, Department of Earth Sciences and Engineering, Imperial College London. I wish to place on record my gratitude to Dr. Harrison for guidance and making available to me all the facilities necessary for the studies. I sincerely acknowledge the valuable suggestions of Dr. Shuhong Wang, Asst. Prof., School of Resource and Civil Engineering, Northeastern University, Shenyang, China, then at the Imperial College. Thanks are also due to the staff of British Library London; Science Museum Library, London; Allama Iqbal Library, Srinagar; and NIT Library, Srinagar for their cooperation and making available to me the journals, reference books, and unpublished reports pertaining to my research studies.

I am grateful to Vineet Shrivastava (Resident Geologist) and Atul Pardi (Senior Geologist), Jaiprakash Industries Ltd. for valuable guidance and suggestions during my field work; to Manoharan, Shahid Raza (both Geologists), M.P. Singh (Supervisor) of Baglihar Hydroelectric Project who have immensely contributed to my research studies by helping me in providing all necessary facilities.

My sincere thanks are due to Mr. Gulzar Ahmad Mukhtar, Engineering Geologist, Power Development Department, J&K for his
valuable discussion, suggestions and moral support during the writing of this thesis; to my fellow researchers in the Department -- Akhter Alam, Shakeel Ahmad Bhat, Khursheed Ahmad Lone, Shabir Ahmad Dar, Asif Mehraj and Khursheed Ahmad Mir -- for their unreserved support and useful discussions.

Lastly, I also thank technical and non-technical staff of Geology and Geophysics Department particularly Mohd. Kamal Dar, Tariq Amin Bandey and Mohammad Yousuf Bhat for providing help whenever asked.

Mr. Bashir Ahmad
