ACKNOWLEDGEMENT

I am grateful to Dr.K.Venugopal, Assistant Professor in Civil Engineering, Centre for Water Resources and Ocean Management for the excellent guidance provided for the research work. At every stage, he analysed the results critically and gave a clear cut direction for the work to be done. His systematic approach in dealing with the problems encountered in the research has been the major factor in the successful completion of the work.

My sincere thanks are due to Dr.S.Sundaramurthy, Engineering Director, Chennai Metropolitan Water Supply and Sewerage Board and Dr.M.Mariappan, Deputy Director, Central Leather Research Institute, Chennai, for their help and encouragement.

I would like to place on record my heart felt gratitude to Dr.K.R.Ranganathan, Director, Centre for Environmental Studies, Anna University for all the help extended to me. He was a great source of inspiration.

The help received from Dr.R.Pitchai, Visiting Professor, Indian Institute of Technology, Chennai, Dr.P.M.Modak, Consultant, Bombay, Dr.A.M.Thirumurthy, Professor of Civil Engineering, Anna University and Thiru T.Damodara Rao, formerly Superintending Engineer, Tamil Nadu Water Supply and Drainage Board, Chennai are gratefully acknowledged.
My sincere thanks are due to Thiru P.Parthipan, formerly System Analyst, Anna University, for his help in many ways. I would like to thank Thirumathi S.Rajalakshmi, Stenographer, Centre for Environmental Studies, Anna University for her help.

I would like to place on record the help and encouragement received from my mother-in-law, wife Thirumathi T.Alli Thanasekaran, daughter T.Renuka Devi and co-brothers Thiru K.Parasuraman and Thiru P. Dananjayan.

Had he been alive today, my father-in-law, (late) Pulavar A.Arunagiri Avargal would have been very happy to see his son-in-law complete his research work. I am deeply indebted to him for all the support given to me.

Finally, I am happy to dedicate this thesis to my (late) parents.

K.THANASEKARAN
