List of Tables

Table 3.1: Description of Sample ................................................................. 55
Table 3.2: Number of Respondents for the study ........................................ 55
Table 4.1: Major Functional areas and their functions .................................. 67
Table 5.1: Distribution of Data Samples ....................................................... 73
Table 5.2.1: Awareness of ICT in HEIs ....................................................... 75
Table 5.2.2: Use of technology for e-governance in institutions ..................... 75
Table 5.2.3: Extent of use of ICT Tools used in the e-governance of HEIs .......... 76
Table 5.3.1: Institutions using technology for student admission .................... 85
Table 5.3.2.1: Use of ICT tools in admission process of HEIs of NMU ............ 86
Table 5.3.2.2: Use of ICT tools in admission process of HEIs of PU ............... 87
Table 5.5.1: HEIs using ICT for linking of admission system and daily attendance of students .... 88
Table 5.4.1: Use of ICT for payroll activities in institutions ............................ 89
Table 5.4.2.1: ICT tools used in HEIs of NMU for Personnel Management .......... 90
Table 5.4.3: Extent of HEIs using ICT to link staff attendance with the payroll system .... 93
Table 5.5.1: HEIs using technology in Accounts department ............................ 94
Table 5.5.2: HEIs using ICT for linking of student admission system and accounts system .... 95
Table 5.5.3: Use of ICT in HEIs for linking of staff attendance system with the accounts system .... 96
Table 5.6.1: Use of ICT for e-governance of purchase and inventory functions .......... 97
Table 5.6.2.1: Use of ICT for processes of Purchase and Inventory for HEIs of NMU .............. 98
Table 5.6.2.2: Use of ICT in processes of Purchase and Inventory for HEIs of PU .......... 99
Table 5.7.1: HEIs comfortable with the use of ICT for purchase and Inventory functions ........ 99
Table 5.7.2: Use of technology for accession of books process in libraries .......... 101
Table 5.7.3: Number of computers in the libraries of HEIs ................................ 103
Table 5.7.4: HEIs comfortable with the system in libraries ............................... 103
Table 5.8.1: HEIs using ICT for the exam system .......................................... 104
Table 5.8.2: Use of technology for marking student attendance ....................... 105
Table 5.8.3: HEIs using ICT to link exam system with the student attendance system .... 105
Table 5.8.5: Methods of examination in HEIs .............................................. 106
Table 5.8.5.1: Use of ICT tools for marks evaluation process in HEIs of NMU ............. 107
Table 5.8.5.2: Use of ICT tools for marks evaluation process in HEIs of PU .......... 108
Table 5.8.6: HEIs using ICT tools to communicate with the students .................. 108
Table 5.8.7: ICT used for student feedback in colleges/institutes ..................... 109
Table 5.8.8: HEIs comfortable with the exam system ..................................... 109
Table 5.9.1: Data of the Traditional colleges/institutes of NMU and PU .................. 110
Table 5.9.2: Data of the Professional colleges/institutes of NMU and PU ............... 111
Table 5.9.3: Telephone connections in the institutes/colleges ............................ 112
Table 5.9.4: Internet connections in the institutes/colleges ............................... 112
Table 5.9.5: Networking means used in HEIs ............................................. 113
Table 5.9.6: Frequency of breakdown of system by using the technology in HEIs....................113
Table 5.9.7: Extent of use of ICT in different functional areas in HEIs NMU and PU ..........115
Table 5.9.8: HEIs comfortable with technology used for e-governance..........................116
Table 5.9.9: Support of Management for the Use of ICT in HEIs..................................116
Table 5.9.10: Communication among other facilities provided to students/staff of HEIs.......117
Table 5.9.11.1: Perceptions about the use of ICT for e-governance -Easy.........................118
Table 5.9.11.2: Perceptions about the use of ICT for e-governance -Secured.....................118
Table 5.9.11.3: Perceptions about the use of ICT for e-governance -Relevant ....................119
Table 5.9.11.4: Perceptions about the use of ICT for e-governance -Speedy ......................119
Table 5.9.11.5: Perceptions about the use of ICT for e-governance-Operable.....................120
Table 5.9.11.6: Perceptions about the use of ICT for e-governance-Transparent ...............120
Table 5.9.11.7: Perceptions about the use of ICT for e-governance-Costly .......................121
Table 5.9.11.8: Perceptions about the use of ICT for e-governance-Time Consuming ......121
Table 5.9.11.9: Perceptions about the use of ICT for e-governance-Untrained Staff .........122
Table 5.9.12.1: Effects of use of ICT for e-governance of HEIs- Faster Decision ...............122
Table 5.9.12.2: Effects of use of ICT for e-governance of HEIs- Better Efficiency ..........123
Table 5.9.12.3: Effects of use of ICT for e-governance of HEIs- Cost Saving ................123
Table 5.9.12.4: Effects of use of ICT for e-governance of HEIs- Brand Image .................123
Table 5.9.12.5: Perceptions about the use of ICT for e-governance-NMU & PU HEIs ........124
Table 5.9.12.6: Effects of use of ICT for e-governance of NMU & PU HEIs .................124
Table 6.1.1: Paired sample t-test to check the significance of use of ICT tools in NMU and PU ..127
Table 6.2.1: One-Sample Statistics-NMU .................................................................130
Table 6.2.2: One-Sample Test-NMU ........................................................................130
Table 6.2.3: One-Sample Statistics-PU .................................................................131
Table 6.2.4: One-Sample Test to check the efficiency affecting factors .......................132
Table 6.3.1: Paired samples test for different functional areas on HEIs of NMU and PU ....132
Table 6.4.1.1: Number of colleges using ICT in NMU .............................................134
Table 6.4.1.2: Chi-Square test for use of ICT in NMU ............................................136
Table 6.4.2.1: Number of colleges using ICT in PU ..................................................138
Table 6.4.2.2: Chi-Square test for use of ICT in PU ..................................................138
