List of Figures

Figure 1.1: Evolution of ICT ........................................................................................................... 9
Figure 4.1: Three Pillars for governance of HEI ........................................................................ 62
Figure 4.2: Integration of Functional areas of HEIs using ICT .................................................. 66
Figure 4.3: Functional Integration of departments of HEIs .......................................................... 68
Figure 5.2.3.1: Extent of use of MS-Office for e-governance in HEIs ........................................ 77
Figure 5.2.3.2 Extent of use of Custom Software for e-governance in HEIs ............................... 78
Figure 5.2.3.3: Use of email for e-governance in HEIs ............................................................... 78
Figure 5.2.3.4: Use of Wikis for e-governance in HEIs ............................................................... 79
Figure 5.2.3.5: Extent of use of Blogs for e-governance in HEIs ................................................. 79
Figure 5.2.3.6: Proportion of HEIs using phone for e-governance ............................................ 80
Figure 5.2.3.7: Extent of use of Facebook for e-governance in HEIs ......................................... 81
Figure 5.2.3.8: Use of Online Forums for e-governance in HEIs ............................................... 81
Figure 5.2.3.10: Use of Video Messaging for e-governance in HEIs ........................................ 82
Figure 5.2.3.11: Extent of use of Newsgroups for e-governance in HEIs .................................... 82
Figure 5.2.3.12: Extent of use of Fax for e-governance in HEIs ................................................ 83
Figure 5.2.3.13: HEIs using Twitter for e-governance ............................................................... 83
Figure 5.2.3.14: HEIs using ICT tools for e-governance ........................................................... 84
Figure 5.3.1.2: Use of ICT in student process for PU colleges .................................................. 85
Figure 5.3.3: HEIs using ICT for linking of admission system and daily attendance of students 88
Figure 5.4.1: Extent of use of ICT for payroll activities in institutions ....................................... 89
Figure 5.4.2.1: ICT tools used in HEIs of NMU for Personnel Management .............................. 91
Figure 5.4.2.2: ICT tools used in HEIs of PU for Personnel Management .................................. 92
Figure 5.4.3: Extent of HEIs using ICT to link staff attendance with the payroll system .......... 93
Figure 5.5.1: HEIs using technology in Accounts department ................................................... 94
Figure 5.5.2: HEIs using ICT for linking of student admission system and accounts system ..... 95
Figure 5.5.3: Use of ICT in HEIs for linking of staff attendance system with the accounts system ................................................................................................................. 96
Figure 5.6.1: Use of ICT for e-governance of purchase and inventory functions ..................... 97
Figure 5.6.3: HEIs comfortable with the use of ICT for purchase and Inventory functions .... 100
Figure 5.7.1: HEIs using ICT in library ......................................................................................... 101
Figure 5.7.4: HEIs comfortable with the system of libraries ....................................................... 103
Figure 5.8.1: HEIs using ICT for the exam system ................................................................. 104
Figure 5.8.4: HEIs using ICT to link exam system with the student attendance system ........ 106
Figure 5.8.8: HEIs comfortable with the exam system .............................................................. 109
Figure 5.9.6: Frequency of breakdown of system by using the technology in HEIs ................. 114
Figure 5.9.7: Extent of use of ICT in different functional areas in HEIs of NMU and PU .... 115
Figure 5.9.8: HEIs comfortable with technology used for e-governance .................................. 116
Figure 8.2.1: Integrated Model fore-governance in HEI ............................................................ 164
Figure 8.2.2 SKIM for governance of HEI ............................................................................... 170
