ACKNOWLEDGEMENTS

The author sincerely acknowledges, with a deep sense of indebtedness and gratitude, the valuable guidance, unremitting support, encouragement and patient supervision offered by Dr. N. Sathyamurthy, Research Supervisor and Professor of Chemical Engineering, A.C. Tech., Anna University, in carrying out the present investigation.

Thanks are due to Dr. V. Mohan and Dr. N. Subramanian, for their suggestions and advice as members of the Doctoral Committee.

The author is extremely grateful to Dr. M. Rajendran, Reader, Dept. of Chemical Engineering for all his valuable suggestions and significant contribution towards the completion of this work.

The author expresses his thanks to Dr. M. Velan and Dr. N. Selva Kumar for all their valuable suggestions in the preparation of the thesis.

Thanks are due to Dr. P. Gnanasundaram and Dr. P. Manohar for their constant encouragement and moral support. The author is thankful to Dr. C. M. Verghese for editing the text of the thesis.

His thanks are due to other friends and well wishers who have helped in one or other way in completing this work.
