ACKNOWLEDGEMENT

It is with great respect and immense pleasure that I put on record my deep sense of gratitude to my research guide Dr. N. Vasudevan Nair for suggesting the research topic, timely advice, immensely useful discussion, motivation and co-operation throughout my doctoral studies. His deep knowledge and skill in instrumentation helped me a lot to understand the instruments fabricated and used in the present work.

My sincere thanks to the Principal, office administrative staff and the staff members of the Department of Physics, Mahatma Gandhi College, Thiruvananthapuram for providing the required facilities.

I am extremely thankful to Kerala University Library, Thiruvananthapuram, NIIST (CSIR), Thiruvananthapuram, VSSC, Thiruvananthapuram and IISc, Bangalore for providing me the library facilities.

I am thankful to KMML, Chavara for providing Titanium Tetra Chloride for this work.

I take this opportunity to thank Prof. Ajay Gupta, Dr. V.R. Reddy, Dr. R.J. Choudhary, UGC-DAE, Indore, Dr. K. Venugopal, Dep of Physics, M.L.Sukhadia University, Udaipur, Er. Ramasamy, Instrumentation Centre, Pondycherry Central University, Dr. Syamaprasad, Dr. Manoj Rama Varma and Mr. Gurusamy, NIIST, Thiruvananthapuram, Dr. P.S. Anil Kumar, IISc, Bangalore for providing me the experimental facilities, without which I could not have completed my experimental work. I wish to thank my colleagues and well wishers for their help and co-operation.

My gratitude to the U.G.C for granting me deputation under the F.I.P programme of the U.G.C X plan.

V. ANUP KUMAR
