Publications by the author

1 Observation of day-to-day and seasonal variability in vertical F-region plasma drift at magnetic equator using HF Doppler Radar.
Indian Journal of Radio and Space Physics, 25, (1996), 158

2 HF Doppler Radar observation on the relationship between electrostatic turbulence and equatorial spread-F.

3 Magnetic activity dependence of vertical plasma drift and its influence on spread-F.
Indian Journal of Radio and Space Physics, 26, (1997), 213

4 Fluctuations in vertical plasma drift and magnetic activity.
Indian Journal of Radio and Space Physics, 27, (1998), 233

Symposium presentations.

5 Observation of meridional wind at magnetic equator using HF Doppler Radar.
National Space Science Symposium, (1996), Hyderabad

6 HF Doppler Radar observation of Temporal evolution of F-region plasma during ESF.
National Space Science Symposium, (1996), Hyderabad

7 Electric field fluctuations at the magnetic equator and its relation with spread-F.
National Space Science Symposium, (1996), Hyderabad

8 Response of the post-sunset vertical plasma drift to magnetic activities.
National Space Science Symposium, (1996), Hyderabad
