LIST OF FIGURES

1. Geographical locations of the sacred groves in the study area.
2. Idealised view of Mudhanai sacred grove.
3. Idealised view of Konjikuppam sacred grove.
4. Idealised view of Varakkalpattu sacred grove.
5. Idealised view of Pooranankuppam sacred grove.
7. Idealised view of Omiper sacred grove.
8. Idealised view of Olagapuram grove.
9. Frequency distribution of woody taxa of Mudhanai based on height, girth and basal area.
10. Frequency distribution of woody taxa of Konjikuppam based on height, girth and basal area.
11. Frequency distribution of woody taxa of Varakkalpattu based on height, girth and basal area.
12. Frequency distribution of woody taxa of Pooranankuppam based on height, girth and basal area.
13. Frequency distribution of woody taxa of Oorani based on height, girth and basal area.
14. Frequency distribution of woody taxa of Omiper based on height, girth and basal area.
15. Frequency distribution of woody taxa of Olagapuram based on height, girth and basal area.
16. Economic importance of plants from sacred grove sites.
17. Percent distribution of Life-forms, parts - used and families among medicinal plants used by traditional medical practitioners.
18. Life-form patterns of plants of seven sacred groves.
