ACKNOWLEDGEMENTS

The author is deeply indebted to Dr. (Miss) K. Saramma, under whose supervision the work was carried out, for the advice, guidance and help she always received.

She wishes to acknowledge her thanks to Professor R. Anantaraman for the helpful discussions during the course of the preparation of this thesis.

She likes to record her thanks to Professor C.G. Ramachandran Nair, Head of the Department of Chemistry, University of Kerala, for his keen interest and helpful encouragement.

She is obliged to acknowledge the cooperation and assistance rendered by the members of the staff, particularly by Dr. M.R. Nair and the students in the Department.

Grateful acknowledgement is made to the University of Kerala for the award of U.G.C. Junior Research Fellowship and for providing necessary facilities.

A. THANKAMMA.
