ACKNOWLEDGEMENTS

It gives me a great pleasure to express my deep sense of gratitude and indebtedness to Professor (Dr.) M.K. Agarwal. I would never have been guided a single step without his precious, inspiring, encouraging and valuable guidance in the trying period of my research endeavor, without which it would have been quite impossible for me to complete my doctoral research.

I am thankful to Professor (Dr.) P.D. Patel for offering me positive comments and suggestions based on his wide experience in teaching and research. I must admit that his comments and suggestions have enriched my work.

I am thankful to the authority of the Sardar Patel University for providing me with necessary facilities. Thanks are also due to Head, Department of Physics, Sardar Patel University for providing me excellent facilities for carrying out present investigation smoothly.

I am indebted to Professor S.G. Patel for constant inspiration, warm and invaluable moral support. Suggestions and help during the part of the present work given by Prof. S.K. Arora and Prof. A.T. Oza are also acknowledged with gratitude. My sincere thanks are due to my colleagues who are always source of encouragement and from a fabric of friendship through which some good work may have cultivating boost. Hence I wish to record the words of hearty thanks for Prof. V.M. Pathak, Dr. M.P. Deshpande and Dr. K.D. Patel.

I extend sense of veneration to Dr. Lakshminarayana for his help and advice through out the period of present work.

I thank all my research colleagues Dr. Ajay Agarwal, Mr. Sudeep Goyal, Mr. Yogesh Patel, Dr. Ramesh Patel, Mr. Rajiv Vaidya, Mrs. Neha Bhatt, Miss. Dhairya Dhodakiya, Mr. Vipul Patel, Mr. Roshan Mathew, Mr. R.J. Pathak, B. P. Modi for their ceaseless help and co-operation all through out this onerous work.

Commonly unknown technical assistance of Mr. Srilal Jha was freely extended to me with managing through out the experimental work.

I am thankful to all the faculty members and non-teaching staff of the department for helping me directly. I regret that I could not name all of them due to the paucity of space.

I have special regards for Dr. Sunil Chaki for helping me in number of ways.

The technical help received from USIC (University Science and Instrumentation Centre, V.V.Nagar) and particularly from Mr. Rao and Mr. Illyas for the preparation and sealing of quartz ampoules needed for growth of crystals is gratefully acknowledged.

I extend my thanks towards Mr. Navinshai Talpada of Chemistry Department for his kind co-operation while carrying out optical characterisations.

I am very much thankful to Gokul Patel (Sophisticated Instrumentation Center for Applied and Research Testing, V.V.Nagar) for EDAX analysis.
The assistance rendered Dr. S.K. Sikka, Dr. B.K. Godwal, Dr. S.N. Vaidya, V. Vijaykumar, Mrs. Alka Garg, Mrs. Minaxiben and Late Dr. C. Karunakaran [High Pressure Physics Division, Bhabha Atomic Research Centre (BARC), Mumbai] for permitting me to use the facilities available in the laboratory for high pressure resistivity measurement work, I wish to record my words of thanks for Mrs. Rijbero (Head, Library Information Service, BARC, Mumbai) for providing me necessary library facilities.

I am also thankful to Dr. A.K. Singh (National Aerospace Laboratory, Bangalore) for allowing me to do work on high pressure resistivity measurements.

I extend my thanks towards Dr. M.C. Gupta (Regional Sophisticated Instrumentation Center, Nagpur) for XRD facilities.

It is also a distinct pleasure to extend my sincere thanks to Dr. V. Ganesan (Inter University Consortium for Department of Atomic Energy Facilities (IUC-DAEF), Indore) for help in carrying out low temperature resistivity measurements experiments.

I am also thankful to Dr. S.M. Dhavan (National Physical Laboratory (NAL), Delhi) for giving me permission for literature survey in the library.

I am grateful to Prof. (Dr.) N.L. Bhat (Indian Institute of Sciences, Bangalore) for providing me necessary permission for latest literature survey in the library.

I am grateful to Prof. R.G. Kulakarni (Department of Physics, Saurashtra University, Rajkot) for magnetic characterisation.

I am thankful to Dr. G.R. Pandya (M.S. University of Baroda, Baroda) for characterisation of electrical and magnetic properties.

I extend my thanks towards Head, Physical Research Laboratory, Ahmedabad, for giving me necessary permission for literature survey in the library.

I wish to express my indebtedness for my family members, my father Kantilal, my brothers Deepak and Kirit, my sister Chandrika, my bhabhi Manjula and Heena and loving children Rinku and Namra with out whose goodwill and support, it would have been impossible for me to complete this work.

Finally, I cannot forget my wife Bhavna and loving son Divy for spending days and months together without me. Bhavna always offered me her helping hand in the midst of adverse situations in the routine life. I know well that she had to spend many lonely days waiting for me without any complaints.

In the end, I am thankful to all those who have helped me directly or indirectly.

- G.K. Solanki
