ACKNOWLEDGEMENT

With a deep sense of gratitude, I bow my head to the lotus feet of Bagawan Sai for enabling me to complete this work.

Rock is the same but a sculptor transforms it to a sculpture and a smith makes it as a stone for building and a carrier makes a tomb stone out of it. Though all the students are equally gifted, their shaping lies on the people at whose hands they fall into, my beloved guide Dr. M. SAROJADEVI, Lecturer, Department of Chemistry, Anna University, Chennai-25, amidst all the busy and high schedules she had, was gracious enough to be the guide, in my research work. The keen interest evinced by her on my progress, could only be experienced and not explained. I thank her adequately for suggesting the problem, valuable guidance, constant help and encouragement. I shall certainly be able to remember her with most grateful feelings for the rest of my life. The light kindled by her will ever shine.

I am indebted to Dr. V. MURUGESAN, Professor and Head, Department of Chemistry, Anna University for his unstinted support, constant encouragement at crucial junctures. I am very much grateful to Dr. M. PALANICHAMY, Assistant Professor of Chemistry, Anna University for his valuable suggestions. I thank Dr. N. LINGAPPAN, Assistant
Professor of Chemistry, Anna University for his encouragement and timely help.

My heartful gratitude to Prof. N. G. NAIR, Director (Retired), Composite Technology Centre, Indian Institute of Technology, Madras, Chennai for having permitted me to carry out a part of research work and for his valuable suggestions.

I acknowledge with pleasure the assistance extended by the other Faculty members of the department and Mr. R. HARIHARAN, Research Scholar, Department of Chemistry, Anna University, Chennai.

I express my deepest appreciation to my family members Mr. A. SELVANATHAN, Mr. K. VISWANATHAN, Mr. T. S. VIJAYAKUMAR and Mr. V. VENKATARAMANAN and family for extended and untiring assistance, constant encouragement and fullest co-operation throughout the tenure of this work.

I extend my sincere thanks to the "STUDENTS XEROX" Adayar for helping me to complete this dissertation on time.

S. GUHANATHAN
