ACKNOWLEDGEMENT

The author expresses his deep sense of gratitude and sincere thanks to his research supervisor Dr. L. Karunamoorthy, whose guidance in the current research area, whole hearted support, motivation and advice throughout this research made it a grand success. His creative guidance made the author to do a part of his research in the University of Siegen, Germany.

The author thanks his Doctoral Committee members, Dr.G.S.Kandasami, former Professor and Head, Department of Production Technology, MIT, Chennai and Dr. L. Vijayaragavan, Professor, Manufacturing Engineering Division, IIT-Madras, Chennai, for providing the necessary multi-phased review and guidance.

The author thanks the Vice-Chancellor of Anna University, Dr.E.Balaguruswamy, Registrar, Dr.S.Ganapathy, Dr.N.S.Parthasarathy, Director (Research), Dr.G.Ramaiyan, Dean, C.E.G., Dr.S.Renganarayanan, Head, Department of Mechanical Engineering, Dr.R.RadhaKrishnan, PS to VC, Dr.V.Guruswamy, former Director of International Division, Dr.S.Natarajan, Professor, Dr.S.Rajendra Boobathy, Assistant Professor, Er.Uمامaheswaran, Er.Subramania Guptha and Mr. S. Dharmaraj, for their support and encouragement throughout this research.

The author is deeply indebted to Dr.Ing. Hubert Roth, Professor and Director Institute of Control Engineering and Dr.Ing.Klaus Schilling, Professor and Director of German DAAD-IQN program for their valuable support and guidance in his research studies in the University of Siegen, Germany. Finally, the author thanks his family members for motivating him with their patience, sacrifice and love.

K. DHINESH KUMAR
