ACKNOWLEDGEMENTS

First of all, I record my gratitude to my three supervisors, Prof. Dr. D. Beck, Prof. Dr. S. Thaymanavan and Prof. Dr. G.B. Jaiprakash Narain who gave me encouragement, inspiring inputs, constant supervision and excellent advice in interesting discussions.

The author is extremely thankful to Dr. N. Balasubramanian, a member of the Doctoral committee.

My special thanks to Mr. B. Lunkenheimer, Mrs. E. Keke, Dr. M. Nienhaus as well as Dr. G. Hayfa from the German Technical Cooperation Agency (GTZ), the Federation of Common Effluent Treatment Plants, Tirupur and their representative Dr. P. Appuswamy, the White House dyeing unit, namely Mr. E. Elyas, Mr. Muktha, Mr. Rangarajan and Mr. Navaneethakrishnan who helped me to get and take samples in the first two years.

Finally, the author is thankful to the Anna University for the administrative support.

Chennai, June 2002
