ACKNOWLEDGEMENT

Many attempts have been made in the field of research in education but hardly any research has been undertaken to understand problems among the nursing students. This is a solitary but humble effort in this research area in the State of Gujarat.

The investigator of this study is greatly indebted to her guide, Dr. (Mrs.) C.B. Patyal, Principal, N.M. Patel College of Education, Anand for his expert guidance and advice in conducting the study.

She expresses her gratitude to late Dr. Shailalbhai V. Patel, Ex-Principal, Dr. I.A. Vora, Reader in Education, M.S. Patel College of Education, Vallabh Vidyanagar and Dr. N.M. Patel, Prof. of Statistics, B.A. College of Agriculture, Anand for their statistical help in conducting the study.

She is also grateful to Dr. O.P. Gupta, Director, Dr. R.C. Shah, Deputy Director, Dr. (Mrs.) H.P. Dastoor, S.N.S. of Medical Education and Research, Mrs. S. Kamani, Principal, College of Nursing, Ahmedabad, Superintendent of Hospital and Matron of General Nursing Schools of Gujarat State for allowing her to conduct this study. She is also thankful to the Nursing Tutors for their co-operation.
She is grateful to the General Nursing Students for their co-operation.

Finally she is greatly indebted to her husband Mr. I.S. Dabhi, Father Mr. G.H. Das, Mother Mrs. V. Das, daughters Dipti, Alika, Son Arpit and Mrs. S. Benery Lab. Assistant for their help, encouragement and loving co-operation throughout. It is hoped that the present study will be of immense use to the educational institutions, students and research workers who are concerned with guidance and nursing administration.

She also extends her sincere thanks to Mr. J.C. Christian for doing the typing work neatly.
