ACKNOWLEDGEMENTS

I take this opportunity to express my gratitude to my Guide Dr. Jayandra. K Dave. The constant encouragement of the guide has helped the investigator to constantly remain on the proper track with enthusiasm. Present research project could not have been achieved unless the inspiring guidance from him have come.

Here, I will not miss the opportunity to express my special gratitude to my honourable Sir Dr. M. B. BUCH (Professor & Head of the CASE, Dept. of Education and Psychology, Baroda) for his inspiring and scholastic help. The feelings of gratitude for him are beyond expression.

I take this opportunity to thank all the teachers and pupils of third standard class, who cooperated whole heartedly at every stage of my work. I am also thankful to the colleagues and language experts and child psychologist for helping me to complete the work. The nature of the work needed statistical help and consultations from time to time. I am highly thankful to all those who helped me in making the work statistically appropriate.
