ACKNOWLEDGEMENT

I have worked with a great number of people whose contribution in assorted ways to the research and the making of the thesis, deserves a special mention. It is a pleasure to convey my gratitude to them all in my humble acknowledgment. First and foremost, I thank to Almighty for being with me to clear all research obstacles that came in my way during the tenure. You have made my life more bountiful. May your name be exalted, honored, and glorified.

I would like to record my gratitude and indebtedness to my research guide Dr. Rita N Kumar, HOD, Department of Biological and Environmental Sciences, NVPAS for her valuable advice and support during the whole period of the study. Her supervision, advice and guidance from the very early stage of this research have helped me a lot throughout the work.

I also express my deep sense of gratitude to my research co-guide Dr. Nirmal Kumar J.I., Professor and Head, P.G. Department of Environmental Science and Technology, ISTAR. His perpetual energy and enthusiasm in research had motivated all his students, including me. In addition, he was always accessible and willing to help his students with their research work. Strict discipline, wise guidance, sense of responsibility and perfection and art of overcoming obstacles could not have been taught in a better way than Nirmal Sir. I am also thankful to Dr. Nirmal Kumar, J.I for selecting me and giving me an opportunity to work as Junior Research Fellow in MoEF, New Delhi sponsored project and providing me fellowship during my tenure of research period.

I am highly grateful to Dr. V.S. Patel, Director, Sophisticated Instrumentation Centre for Applied Research and Testing (SICART), Vallabh Vidyanagar for his encouragement, valuable suggestions and allowing for instrumental analysis during my research tenure. My special thanks to Dr. B.G. Patel, Director, Institute of Science and Technology for Advanced Studies and Research (ISTAR), Vallabh Vidyanagar for giving me an opportunity to carry out my research work at ISTAR. I
am also grateful to Dr. Basudeb Bakshi, Principal, NVPAS for his moral support and cooperation throughout this work.

My research colleagues Mr. Sajish P.R. and Dr. Shailendra Viyol deserve special thanks for their constant support and remarkable help during my field visits, analysis and sampling. Collective and individual acknowledgments are also owed to my colleagues at ISTAR and NVPAS for their constant support during my study period. I am thankful to my research group members Mr. Kanti Patel, Mrs. Anubhuti Bora, Mrs. Manmeet Kaur Amb, Dr. Cini Oommen, Mr. Rohit Bhoi, Dr. Hiren Soni, Mr. Narendra Patil, Mrs. Manishita Das and Dr. Sudeshna Chakraborty for their help and providing a good working atmosphere. Special thanks are due to Miss. Rajal Solanki for her support during the time of thesis writing. I owe thanks to Mr. Hitesh Patel and Mr. Ritesh Jani for their help in environmental science laboratory, ISTAR. I would also like to acknowledge Dr. G. Sivakumar, NBAII, Bangalore, Dr. Boney Kuriakose, FABI, Pretoria University and Mr. Pramod S, BRD School of Bioscience, SP University for their valuable suggestions, moral support and helping hands during my study.

My deepest gratitude goes to my family for their unflagging love and support throughout my life; this dissertation is simply impossible without their blessings. Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

Basil George
